

DIVISION A—AGRICULTURE, RURAL DEVELOPMENT, FOOD AND DRUG
ADMINISTRATION, AND RELATED AGENCIES APPROPRIATIONS ACT, 2008

~~EXPLANATORY STATEMENT~~

Following is an explanation of the effects of this division of the House amendment to the Senate amendment to H.R. _____ (hereafter referred to as “the amended bill”) relative to the versions of the Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Appropriations Act, 2008 (H.R. 3161) passed by the House of Representatives and S. 1859 reported by the Senate Appropriations Committee.

CONGRESSIONAL DIRECTIVES

This statement remains silent on provisions that were in both the House and Senate bills that remain unchanged by this amended bill, except as noted in this statement.

Executive branch wishes cannot substitute for Congress’ own statements as to the best evidence of congressional intentions—that is, the official reports of the Congress. Funds in this Act must be used for the purposes for which appropriated, as required by section 1301 of title 31 of the United States Code, which provides: “Appropriations shall be applied only to the objects for which the appropriations were made except as otherwise provided by law.”

The House and Senate report language that is not changed by this statement is approved. This statement, while repeating some report language for

emphasis, does not intend to negate the language referred to above unless expressly provided herein.

In cases in which the House or the Senate have directed the submission of a report, such report is to be submitted to both the House and Senate Committees on Appropriations.

TITLE I – AGRICULTURAL PROGRAMS

PRODUCTION, PROCESSING, AND MARKETING

OFFICE OF THE SECRETARY

The amended bill provides \$5,097,000 for the Office of the Secretary instead of \$5,404,900 as proposed by the House and \$5,309,000 as proposed by the Senate.

The Committees on Appropriations direct USDA to submit a plan to the Committees that fully addresses the weaknesses in the food safety system that led GAO to list food safety on its January 2007 high-risk list.

The Committees believe that agencies must make every effort to reach management decision on audit recommendations by the Office of Inspector General within 180 days, as required under OMB Circular A-50. The Committees are aware that there are a large number of recommendations on which numerous USDA agencies have not reached management decision within the prescribed time

period; some of these matters date back years. In lieu of the individual agency reports requested by the House, the Secretary is directed to submit a single report to the Committees with a plan for reaching management decision on all recommendations that have been outstanding more than 180 days as of the date of enactment of this Act.

USDA is directed, unless otherwise stated herein, to provide all reports and studies requested by the Appropriations Committees of the House and Senate, or by this explanatory statement, in an agreed upon format within 60 days after the enactment of this Act.

The Committees on Appropriations are concerned that excessive assessments of programs, projects, and activities are being used to fund individual agencies' overhead and indirect costs. The Committees on Appropriations direct the Secretary to submit a report, concurrent with the fiscal year 2009 budget submission, that explains in detail by agency the charges agencies assess programs, projects, and/or activities and how those assessments are used.

COOPERATIVE STATE RESEARCH, EDUCATION, AND EXTENSION SERVICE

RESEARCH AND EDUCATION ACTIVITIES

The amended bill provides ~~\$667,997,000~~ ^(672,997,000) for research and education activities instead of \$671,419,000 as proposed by the House and \$700,849,000 as proposed by the Senate.

In lieu of the report requested by the House, the Committees encourage CSREES to include additional information in the budget justification on the primary research objective or objectives of each program for which funds are requested.

The Committees provide \$192,229,000 for competitive research under the National Research Initiative (NRI). Of this amount, \$3,000,000 is provided for the NRI for research that will be of direct benefit to the Food and Drug Administration (FDA) in pursuit of its food safety regulatory responsibilities. The Secretary of the Agriculture and the Commissioner of the FDA are directed to consult on setting the priorities for this research and report to the Committees on the specific areas of research to be pursued under the agreement of USDA and FDA.

The Committees encourage the Secretary to provide the requested increase for bioenergy and biobased fuels research within the funds provided for NRI and to give greater emphasis on NRI funding for forestry and natural resources topics.

The Committees also encourage the Department to use not less than 10 percent of competitive research grant funds for USDA's agricultural research enhancement awards program (including USDA-EPSCoR), in accordance with 7 USC 450i.

As part of the special research grant total, the Committees provide \$2,095,000 for policy research under the authorities of 7 U.S.C. 3155. Of this amount, \$1,200,000 is provided for the Food and Agriculture Policy Research Institute of which \$180,000 is for a cooperative agreement with the University of Wisconsin relating to dairy policy and \$150,000 is for the University of Nevada at Reno relating to the marketing of commodities in the Western United States. In addition, \$895,000 is for the Rural Policies Institute.

The Appropriations Committees appreciate the role of stakeholders, university personnel, and others that bring to the attention of the Congress research priorities necessary for the protection and improvement of agricultural production, nutrition, conservation, economic development, and other areas of vital importance to rural America. The Committees believe that these research activities, in conjunction with those identified through the Department's own prioritization,

offer a good balance of meeting the range of research needs for the nation. The Committees expect the Secretary to work with grantees under special research authorities to ensure that the objectives of the research are clearly articulated and that the research conclusions are made available to stakeholders, and the general public, in a way that will disseminate the information in a proper and useful manner.

In the distribution of funds under the Alternative Crops program, the Secretary shall ensure that regional representation is a component of any request for proposals by research institutions and universities. The Appropriations Committees strongly encourage the Secretary to engage stakeholders in the administration of program activities.

The amended bill provides \$27,063,000 for agricultural quarantine inspection. Of this amount, \$2,079,000 is for interline activities in Hawaii and \$225,000 is for the Washington Clean Plant Program.

The amended bill provides \$123,371,000 for animal health monitoring and surveillance. Within this amount, the following items are provided: Biosafety (VT), \$242,000; Conservation Science at Lincoln Park Zoo (IL), \$37,000; New Mexico Rapid Syndrome Validation Program, \$407,000; Wisconsin Livestock Identification Consortium, \$1,485,000; Database of North Carolina's Agriculture Industry, \$223,000; Remote Diagnostic and Wildlife Disease Surveillance (ND), \$1,364,000; and National Farm Animal Identification and Records (NY), \$446,000.

The amended bill provides \$9,750,000 to continue implementation of NAIS. The Committees very much appreciate the work that has gone into the drafting of the NAIS business plan and have reviewed drafts of the document. While the document does help to define and separate out aspects of the program, it does not provide sufficient justification for the requested appropriation of \$33,171,000 for NAIS for fiscal year 2008.

The plan does not indicate how APHIS will reach its 48-hour traceback goal, a question that the Committees have been asking APHIS every year since the program started. While it sets forth key outcomes, there is no clear presentation of

how APHIS will actually reach those goals, and APHIS does not provide an estimate of the full cost of implementing the plan.

The Committees' concern about how the funds for the program have been used is not new, and the plan indicates that those concerns were justified. The Committees are concerned that 51 percent of the obligations to date in NAIS have been for cooperative agreements that, until very recently, did not require that cooperators or grantees agree to specific performance goals. Another 25 percent has gone for program management.

In light of the lack of information provided on full costs and concerns about the use of funds to date, the Committees simply cannot provide the full request.

The amended bill provides an increase of \$1,750,000 over fiscal year 2007 for emergency management systems, of which \$750,000 is for the national veterinary vaccine stockpile and \$1,000,000 is for animal care in emergencies.

The amended bill provides an increase of \$4,525,000 over fiscal year 2007 for highly pathogenic avian influenza for domestic surveillance and preparedness.

The amended bill provides \$27,724,000 for pest detection. Of this amount, \$623,000 is for the California County Pest Detection Augmentation Program and \$743,000 is for import inspection in California.

The amended bill provides an increase of \$375,000 over fiscal year 2007 for select agents for work related to the Agricultural Bioterrorism Protection Act and \$375,000 to continue addressing issues raised by the Office of Inspector General.

The amended bill provides an increase of \$5,600,000 over 2007 for aquaculture for activities related to Viral Hemorrhagic Septicemia.

The amended bill provides \$9,532,000 for brucellosis. Of this amount, \$697,000 is for the Greater Yellowstone Interagency Brucellosis Committee.

The amended bill provides \$17,807,000 for chronic wasting disease. Of this amount, \$1,299,000 is for surveillance in Wisconsin; \$183,000 is for surveillance in Utah; and \$38,000 is for surveillance in Colorado.

The amended bill provides \$127,859,000 for emerging plant pests as follows: \$20,007,000 for Asian long-horned beetle, including \$353,000 for Illinois; \$35,559,000 for citrus health; \$23,175,000 for glassy-winged sharpshooter; \$9,600,000 for potato cyst nematode; \$30,657,000 for emerald ash borer, including \$1,500,000 for Illinois; \$5,326,000 for sudden oak death; \$1,507,000 for karnal bunt; \$371,000 for hydrilla control in Virginia; \$234,000 for olive fruit fly (CA); \$1,000,000 for light brown apple moth; and \$423,000 for miscellaneous pests.

The Committees encourage the Secretary to ensure adequate funding is made available for Asian long-horned beetle activities in New York. The

Committees also encourage the Secretary to help States with new emerald ash borer outbreaks, such as Maryland, and States that are at risk, such as Wisconsin.

The Committees encourage APHIS to use the funding provided for sudden oak death (*Phytophthora ramorum*) to promote the research, development and testing of new systems of nursery pest and disease management and programs of inspection and regulation; for surveying; and for diagnostic tools. The Committees request a report, within 120 days of the enactment of this Act, that examines the effectiveness of current regulatory and inspection efforts; delivers an assessment of the potential risk from infected plant material; and the risk posed by the importation into the United States of *P. ramorum* host and associated host plants and the interstate movement of such plant material.

Of the amount provided for hydrilla control, \$333,900 is for a cooperative agreement with the Lake Gaston Weed Control Council and \$37,100 is for a cooperative agreement with the Tri-County (Smith Mountain) Lake Administrative Commission. The agency is directed to provide technical assistance to these entities in carrying out control efforts, and report back to the Committees by May 1, 2008, on the status of these projects.

The amended bill provides \$6,643,000 for ^{the} grasshopper ^{program}. Of this amount, \$1,125,000 is for grasshopper and Mormon cricket activities in Nevada and \$1,125,000 is for grasshopper and Mormon cricket activities in Utah.

In lieu of bill language included by the Senate, the Committees reaffirm the schedule and report requirements included in the House report *related to Country of Origin Labeling*

LIMITATION ON ADMINISTRATIVE EXPENSES

The amended bill provides \$61,233,000 for Limitation on Administrative Expenses as proposed by both the House and the Senate.

FUNDS FOR STRENGTHENING MARKETS, INCOME, AND SUPPLY (SECTION 32)

The amended bill provides \$16,798,000 for Funds for Strengthening Markets, Income, and Supply as proposed by both the House and the Senate.

In addition, the Committees provide \$10,000,000 for the Web-based Supply Chain Management system as proposed by the Senate instead of \$20,000,000 as proposed by the House.

PAYMENTS TO STATES AND POSSESSIONS

The amended bill appropriates \$11,709,000 for Payments to States and Possessions instead of \$1,334,000 as proposed by the House and \$3,834,000 as proposed by the Senate.

Of the total provided, \$8,500,000 is for specialty crops block grants and \$1,875,000 is for a grant for the development of specialty markets in Wisconsin.

OFFICE OF THE UNDER SECRETARY FOR FOOD SAFETY

The amended bill provides \$600,000 for the Office of the Under Secretary for Food Safety instead of \$632,000 as proposed by both the House and the Senate.

FOOD SAFETY AND INSPECTION SERVICE

The amended bill provides \$930,120,000 for the Food Safety and Inspection Service as proposed by the House instead of \$930,620,000 as proposed by the Senate.

The amended bill does not assume Food Safety Inspection user fees of \$96,000,000 as proposed in the President's budget request. Such fees are not authorized.

The amended bill includes \$63,299,000 for state meat inspection costs, which includes an increase of \$250,000 above the request for state inspection pay costs. About 2,100 meat and poultry establishments are inspected under State Meat and Poultry Programs, and many of these establishments are small or very small. FSIS reimburses states up to 50 percent of the estimated costs of administering state inspections, and has historically provided the full 50 percent of states' documented need. In fiscal year 2006, FSIS reimbursements to the states fell below 50 percent for the first time in nearly 30 years, and it is the understanding of the Appropriations Committees that the funding level provided will allow FSIS to resume providing 50 percent of the documented need by the states.

The amended bill includes the following amounts:

**FOOD SAFETY AND INSPECTION SERVICE
FUNDING BY ACTIVITY**

Food Safety & Inspection:	
Federal.....	\$829,807,000

FARM SERVICE AGENCY

SALARIES AND EXPENSES

The amended bill provides \$1,134,045,000 for the Farm Service Agency ^{Salaries} and ^{Expenses} instead of \$1,127,409,000 as proposed by the House and \$1,160,662,000 as proposed by the Senate.

The Appropriations Committees continue to recognize the need for major upgrades to the Farm Service Agency's computer system used primarily for program delivery. Previous requests for a detailed spending plan for these IT upgrades from the Department have gone unanswered. The Appropriations Committees direct the Department to submit a plan detailing the issues surrounding the deteriorating IT system and the associated costs no later than 30 days after enactment of this Act to the Appropriations and Agriculture Committees. The Appropriations Committees have included IT funds adequate to meet the need described in the Department's budget request. However, since the majority of the work performed by this system is the delivery of mandatory funded farm bill

programs, the Appropriations Committees strongly encourage the Department to work with the House and Senate Agriculture Committees to secure mandatory funding to work towards resolution of this looming meltdown.

HEALTHY FORESTS RESERVE PROGRAM

The amended bill provides \$2,000,000 for the Healthy Forests Reserve Program instead of no funding as proposed by the House and \$2,476,000 as proposed by the Senate.

TITLE III

RURAL DEVELOPMENT PROGRAMS

OFFICE OF THE UNDER SECRETARY FOR RURAL DEVELOPMENT

The amended bill provides \$632,000 for the Office of the Under Secretary for Rural Development instead of \$666,000 as proposed by both the House and the Senate.

The Appropriations Committees are concerned about the proposal to close local Rural Development (RD) offices. Some of these offices are located in counties identified by the Economic Research Service as persistent poverty counties. The amended bill includes a general provision that requires the Secretary of Agriculture to determine the cost effectiveness and/or enhancement of program delivery prior to closing or relocating any RD offices. The Department is directed to provide a report, not later than 60 days before the date of the proposed closure or relocation that describes the justifications for such closures and relocations.

The fiscal year 2006 Appropriations Act made permanent a general provision requiring that the Department of Agriculture consider and treat all loan levels in any appropriations act as estimates and not as loan limitations. It has come to the Committees' attention that loan levels with negative or zero subsidy rates are being treated as limitations. The Committees want to reiterate the intent of that provision and expect the Department to utilize this authority if demand or

authorization changes justify such action by fully recognizing adjustments to current program levels that may occur as the result of recent legislation. The Committees expect to be notified within 30 days of any increases in these programs based on demand or authorization changes.

RURAL COMMUNITY ADVANCEMENT PROGRAM

The amended bill provides funding for the Rural Community Advancement Program (RCAP) under the associated agencies as proposed by the Senate. The House proposed \$728,807,000 under the RCAP account, and the Senate proposed a total of \$704,091,000 under the associated agencies.

RURAL DEVELOPMENT SALARIES AND EXPENSES

The amended bill provides \$169,998,000 for Rural Development Salaries and Expenses instead of \$175,382,000 as proposed by the House and \$175,302,000 as proposed by the Senate.

RURAL HOUSING SERVICE

RURAL HOUSING INSURANCE FUND PROGRAM ACCOUNT

The amended bill provides a total subsidy of \$208,761,000 for activities under the Rural Housing Insurance Fund Program Account instead of \$212,163,000 as proposed by the House and \$202,736,000 as proposed by the Senate.

The amended bill provides for an estimated loan program level of \$5,605,573,000 instead of \$5,100,000,000 as proposed by the House and \$4,966,684,000 as proposed by the Senate.

The amended bill provides for a transfer of \$452,927,000 to the Rural Development salaries and expenses account instead of \$462,521,000 as proposed *caps* by both the House and the Senate.

The Committees on Appropriations acknowledge that significant portions of section 515 appropriations have been used for needed portfolio repair and rehabilitation. However, these repairs can be more efficiently accomplished utilizing tools available under the Revitalization Initiative. For that reason, funding that would have been provided to the section 515 account and used for section 515 repair and rehabilitation is appropriated directly to the Multi-Family Housing Revitalization Program Account.

The amended bill provides a program level of \$4,220,000,000 for the Section 502 Guaranteed Homeownership loans. These loans offer a safe alternative to subprime mortgages for creditworthy low and moderate income rural homebuyers. Lenders and mortgage brokers are increasingly looking for traditional, standard term, mortgage loan programs to serve their clientele, particularly those in need of affordable mortgage financing options. Obligations in the Section 502 Guaranteed Homeownership program have escalated and have

increased by 75 percent over last year's activity during the first two months of the fiscal year. This demand is unprecedented and it is expected that demand will remain strong and grow throughout the rest of the fiscal year as the market continues to adjust from the diminished availability of subprime loans for home purchase.

The following table indicates loan and subsidy levels provided in the amended bill:

Rural Housing Insurance Fund Program Account:

Loan authorizations:

Single family direct (sec. 502)	(\$1,129,391,000)
Single family unsubsidized guaranteed	(4,220,000,000)

Total, Loan subsidies \$208,761,000

RHIF administration expenses (transfer to RD) \$452,927,000

RENTAL ASSISTANCE PROGRAM

The amended bill provides \$482,090,000 for the Rental Assistance Program instead of \$533,020,000 as proposed by the House and \$496,950,000 as proposed by the Senate.

These funds are provided for renewal of expiring rental assistance contracts for a one-year term and for preservation incentives and new construction contracts. In addition, this funding level provides a five percent funding reserve to cover any unforeseen disruptions for renewing contracts. It is expected that one-year contract terms will allow for more accurate cost estimation and will reduce the recent cost fluctuations in this program.

MULTI-FAMILY HOUSING REVITALIZATION PROGRAM ACCOUNT

The amended bill provides \$28,000,000 for the Multi-family Housing Revitalization Program instead of \$27,800,000 as proposed by the House and \$33,423,000 as proposed by the Senate.

The Department is directed to provide an information technology development and spending plan on an automated system to manage housing vouchers issued from the Multi-Family Housing Revitalization Program Account. No funds are to be obligated on that system until submission of the report to the Committees on Appropriations.

The Department is directed to include in the Multi-Family Housing Revitalization Initiative projects funded through the Section 514 and Section 516 Farm Labor Housing Program.

MUTUAL AND SELF-HELP HOUSING GRANTS

The amended bill provides \$39,000,000 for Mutual and Self-Help Housing Grants instead of \$40,000,000 as proposed by the House and \$38,000,000 as proposed by the Senate.

RURAL HOUSING ASSISTANCE GRANTS

The amended bill provides \$39,000,000 for Rural Housing Assistance Grants as proposed by the House instead of \$40,590,000 as proposed by the Senate.

FARM LABOR PROGRAM ACCOUNT

The amended bill provides \$22,000,000 for the Farm Labor Program Account as proposed by the Senate instead of \$46,630,000 as proposed by the House.

The amended bill provides for an estimated loan program level of \$27,739,000; \$12,000,000 for loan subsidies; and \$10,000,000 for grants.

The Appropriations Committees note that the Farm Labor Housing loan and grant program has a large unobligated balance available from prior years, in addition to the appropriation provided, to meet the demand for new construction

and needed repair and rehabilitation of the portfolio. However, the Appropriation^S Committees recognize that repairs can be more efficiently accomplished utilizing tools available under the Revitalization Initiative. For that reason, authority has been provided in the Multi-Family Housing Revitalization Program Account to allow for the Department to utilize those funds for necessary revitalization efforts for the Farm Labor portfolio.

RURAL COMMUNITY FACILITIES PROGRAM ACCOUNT

The amended bill provides \$68,952,000 for the Rural Community Facilities Program Account instead of \$55,742,000 as proposed by the House and \$67,422,000 as proposed by the Senate.

The following table reflects the agreement:

Community Facilities:	
Direct loans	(\$297,000,000)
Direct subsidy.....	16,484,000
Guaranteed loans.....	(207,900,000)

The following table reflects the agreement:

Business and Industry:

RURAL DEVELOPMENT LOAN FUND PROGRAM ACCOUNT

The amended bill provides an estimated loan program level of \$33,772,000 with a subsidy of \$14,485,000 for the Rural Development Loan Fund as proposed by the House instead of \$14,527,000 as proposed by the Senate.

The amended bill provides for a transfer of \$4,774,000 to the Rural Development salaries and expenses account instead of \$4,861,000 as proposed by both the House and the Senate. *Caps*

RURAL ECONOMIC DEVELOPMENT LOANS PROGRAM ACCOUNT

The amended bill provides an estimated loan program level of \$33,077,000 as proposed by the Senate.

The amended bill includes a rescission of \$34,000,000 as proposed by both the House and the Senate.

(WIC)

The amended bill includes \$15,000,000 for continuation of the breastfeeding peer counselor program and \$30,000,000 for investments in management information systems, if the Secretary determines that funds are available to maintain caseload without the use of the contingency fund after the date of enactment of this Act. In addition, the amended bill includes such sums as are necessary to restore the contingency reserve to \$150,000,000, instead of

^

\$125,000,000 as proposed by the House and \$116,000,000 as proposed by the Senate.

The amended bill includes an emergency designation under the concurrent resolution on the budget for fiscal year 2008 for \$400,000,000.

The total funding level provided for WIC is adequate to meet current estimates of program needs, and is \$633,403,000 above the Administration's request. The Appropriations Committees have followed cost increases in the WIC program very closely. Since the budget was submitted in February 2007, program participation has risen, and food costs have increased sharply. Information on participation and food costs is collected regularly by the Department, and the Appropriations Committees believe it is irresponsible for the Administration to ignore this information and not submit an official updated estimate or notification to the Congress regarding the increased funding need for WIC.

Therefore, the Department is directed, beginning on the date of enactment of this Act, and thereafter, to provide monthly reports on the program performance and estimated funding requirements to fully fund the WIC program. Timeframes addressed in these estimates should include the prior year, current year, and budget year of the President's budget submission currently under consideration by the Congress and should separately address baseline program performance from the impact of current law and legislative budget proposals. The Department shall

consider, and include in these estimates, current participation trends and current Economic Research Service food cost estimates in developing updated WIC estimates.

FOOD STAMP PROGRAM

The amended bill provides \$39,782,723,000 for the food stamp program instead of \$39,816,223,000 as proposed by the House and \$39,779,223,000 as proposed by the Senate. Included in this amount is a reserve of \$3,000,000,000, to remain available until September 30, 2009.

Included in the recommended level for other program costs are \$2,000,000 to conduct Food Stamp Program modernization and innovation projects and \$1,000,000 to assist USDA's Center for Nutrition Policy and Promotion in the development and maintenance of MyPyramid and Dietary Guidelines materials in support of nutrition education for the food stamp eligible population.

Included in the recommended level for FDPIR is \$34,706,000 instead of \$34,206,000 as proposed by the House and \$35,206,000 as proposed by the Senate.

The amended bill provides \$211,770,000 for the Commodity Assistance Program instead of \$221,070,000 as proposed by the House and \$199,070,000 as proposed by the Senate.

Of that amount, the amended bill provides \$140,700,000 for the Commodity Supplemental Food Program instead of \$150,000,000 as proposed by the House and \$128,000,000 as proposed by the Senate. It is expected that with this level that 2007 participation will be maintained.

The amended bill provides \$50,000,000 for administration of The Emergency Food Assistance Program (TEFAP) as proposed by both the House and the Senate.

The amended bill provides \$20,000,000 for the Farmers' Market Nutrition Program and directs the Secretary to obligate these funds within 45 days.

to -
A) \$4,000,000 for pandemic influenza preparedness; \$4,000,000 for the review of

direct-consumer advertising; \$1,000,000 for the Office of Women's Health;

\$1,000,000 for the review of cosmetics and colors; \$13,256,000 for FDA's

consolidation at the White Oak campus; and, \$14,504,000 for GSA rent and other

rent and rent related activities. The amended bill includes a proviso prohibiting the

transfer of funds to the Reagan-Udall foundation under section 707(n) of the

Federal Food, Drug and Cosmetic Act.

The Committees are increasingly concerned about FDA's use of a fund known as the central account to pay for various FDA activities. An appropriation specifically for the central account has never been provided. Instead, funds intended for use by FDA's centers and field operations are moved into the central account and managed by the Office of the Commissioner. The Committees recognize that the central account has been utilized by FDA for many years and that there is value in funding some activities centrally. However, funding for the central account has grown unchecked over the past 3 years, increasing by approximately 32 percent from fiscal year 2003 to 2006. In fiscal year 2006, central account charges were approximately \$125,000,000. FDA does not provide information on estimated costs and use of central account funds to the Committees on Appropriations. The Committees find this lack of accountability unacceptable and therefore direct FDA to include in its annual budget request, beginning with

fiscal year 2009, previous year, estimated current year, and estimated budget year central account charges by FDA program area and center/field split for each charge applied. In addition, the budget should include a narrative summary of each central account charge including how the funding is used and how the charge is assessed to the program areas.

The amended bill includes an increase of \$21,200,000 for drug safety, of which not less than \$10,000,000 is for the Office of Surveillance and Epidemiology. The Committees expect that FDA will use this funding to enhance the agency's ability to identify safety issues with products already on the market and under review.

The amended bill includes an increase of \$7,500,000 for the critical path initiative, of which \$2,500,000 shall be available, on a competitive basis, for contracts or grants to universities and non-profit organizations to support individual critical path projects.

The amended bill includes an increase of \$56,000,000 above the fiscal year 2007 level for food safety activities of the FDA for improvements to agency procedures, to enhance inspection capabilities for the protection of consumers, and to help the agency recover from the administration's low budget estimates of recent years.

Of the increase provided for food safety, the Committees direct that no less than \$18,317,000 shall be available immediately to hire additional domestic and import food inspectors, including \$8,000,000 for the deployment of inspectors with rapid response capabilities who will be responsible for immediate attention to outbreaks of food-related disease as well as providing technical assistance to states and others, as appropriate, to support overall practices to increase the safety of food and food products.

Of the total amount provided for food safety, the Committees direct that \$1,500,000 shall be used for the creation of a Western Region FDA Center of Excellence at the University of California at Davis. The Committees do not include an additional \$4,000,000 for other food safety-related research, as proposed by the Senate, under this account. However, the Committees have provided an increase of \$3,000,000 to the National Research Initiative for this purpose and fully expect the Commissioner of the FDA and the Secretary of Agriculture to work together to identify food safety research priorities of importance to the regulatory functions of the FDA and food safety generally. The Committees expect a report on the conclusions of an agreement between the Commissioner and the Secretary that describes the research priorities identified and the awarding of research grants to meet those needs.

In addition, the Committees expect the FDA to contract with the National Academy of Sciences for a comprehensive study of gaps in ~~the~~ public health protection provided by the food safety system in this country. The report should address the recommendations of the FDA Food Protection Plan released in November 2007.

Of the increase provided for food safety, the amended bill includes \$28,000,000 available from July 1, 2008 to September 30, 2009. The Committees direct the agency to provide, concurrent with the fiscal year 2009 budget justification, a plan that describes a method to improve the national food safety system, including clear, measurable benchmarks for concrete improvements in the performance of its food safety mission.

As stated in the House report, "the plan must set forth clear, definitive goals over a multiyear period to comprehensively overhaul FDA's food safety operations, covering both domestic and imported foods. The plan must include a detailed description of any organizational, managerial, statutory and regulatory changes necessary to achieve them, as well as an assessment of the budgetary resources needed. If statutory changes are proposed, the plan must include the statutory language. The plan must be approved by the Office of Management and Budget." The Committees suggest that ~~hat~~ enforceable standards for food safety, HACCP-like systems, and a process for reviewing the food safety systems in countries that

export food to the United States should be considered as key parts of the building blocks of such a plan.

FDA is directed to submit a plan to the Committees that fully address the weaknesses in the food safety system that led GAO to list food safety on its January 2007 high-risk list.

The Committees support FDA's review of a means by which drugs marketed outside the present approval process, which have been in clinical use for the past 25 years and are prescribed by doctors, may be more efficiently vetted by the agency. FDA is encouraged to work toward the development of a system to review this unique class of drugs.

The Committees encourage FDA to ensure that the MedGuide program is assisting patients in understanding the risks associated with certain medications to the greatest degree possible. The Committees encourage FDA to work with patient groups, manufacturers and national pharmacy groups to address improvements in the program. The Committees request a report on the progress it is making toward these improvements within one year of enactment of this Act.

The Committees were encouraged by FDA's March 2007, announcement that the agency was going to significantly limit the number of financial conflict of interest waivers granted to advisory committee members. In September 2007, the

Congress passed, and the President signed, the Food and Drug Administration Amendments Act of 2007 (FDAAA). FDAAA placed a cap on the number of waivers that can be issued annually and reduced them by 25 percent over the life of the Act. The Committees note that the waiver limits passed in FDAAA were less stringent than those proposed by FDA in March 2007. The Committees remind FDA that the FDAAA limitations are a ceiling and strongly encourage FDA to continue its efforts to limit the use of financial conflicts of interest waivers to greatest extent possible.

The Committees note that on December 28, 2007, ⁽⁶⁾ the Center for Veterinary Medicine issued a draft risk assessment on animal cloning which concluded that food products from cloned animals are safe to enter the food supply. During the public comment period, thousands of submissions were received by FDA. Many of these asked the FDA to obtain more information not assessed in the initial risk assessment, including further evaluation of the potential health, economic, and trade impacts, before acting further. In addition, many comments expressed concern that several of the studies on which the risk assessment was based did not undergo a scientific peer review process. The Committees strongly encourage FDA to continue the voluntary moratorium on introducing food products from cloned animals into commerce until FDA completes a review and analysis of

comments and evaluates the need for additional studies recommended during the public comment period.

The Committees direct the Food and Drug Administration to enter into an agreement with the Economic Research Service at USDA to study the domestic agricultural and international trade economic implications of permitting commercialization of milk and meat from cloned animals and their progeny into the food supply.

Insert A

The amended bill includes \$1,725,000 for research on dietary supplements at the National Center for Natural Products Research in Oxford, Mississippi; \$149,000 for the Interstate Shellfish Sanitation Commission (ISSC) and \$186,000 for ISSC *Vibrio Vulnificus*; \$74,000 for the Warehousing Education and Research Council; \$2,228,000 for the National Center for Food Safety and Technology; \$1,769,000 for the Food Technology Evaluation Laboratory at New Mexico State University; and \$563,000 for collaborative drug safety research with the Critical Path Institute and the University of Utah.

The Committees are aware, and appreciate, that FDA is currently working to update the format of its Explanatory Notes in an attempt to streamline information provided and make it more useful to Congress. The Committees direct FDA to ensure that all changes to the Explanatory Notes reflect the comments made by the Congress.

P The Committees are concerned that FDA may have exceeded its statutory authority when the agency decided to begin allowing the use of qualified health claims for conventional foods in 2003. Such claims are not based on the standard of “significant scientific agreement” set forth in the Nutrition Labeling and Education Act. The agency has devoted literally thousands of hours of staff work to this undertaking at a time when the agency’s ability to carry out its public health responsibilities are severely stretched.

P The Committees need a thorough, independent analysis of FDA’s actions in this situation, the impact of qualified health claims on the public’s perceptions of conventional foods, and the usefulness of qualified health claims. Therefore, the Committees request a report from the Government Accountability Office (GAO) on qualified health claims and ask that GAO work with the Committees on Appropriations of the House and Senate on the parameters of the report. The Committees also urge the FDA not to use funds provided in this bill to review requests for qualified health claims for conventional foods or to issue letters permitting such claims through exercises of enforcement discretion until the independent analysis is completed.

In House Report 109-255, the conference report accompanying the fiscal year 2006 appropriations bill, Congress ~~direct~~ FDA ^(ed) "to provide the same level of budget justification for its research activities in the fiscal year 2007 budget as it does other activities, including a justification of both base spending and any proposed increases by activity within center or office." FDA has not fully complied with this requirement to date and is directed to meet this requirement in the fiscal year 2009 budget submission.

FDA is directed that, unless otherwise stated, all reports and studies requested by the Committees in House Report 110-258 or Senate Report 110-134 or in this Explanatory Statement, shall be provided within 60 days after enactment of this Act.
