

DIVISION B – COMMERCE, JUSTICE, SCIENCE AND RELATED AGENCIES (,
APPROPRIATIONS ACT, 2008

Following is an explanation of the effects of this division of the House amendment to the Senate amendment to H. R. 3093 (hereafter referred to as “the amended bill”) relative to the versions of the Departments of Commerce and Justice, and Science, and Related Agencies Appropriations Act, 2008 (H.R. 3093) passed by the House of Representatives and the Senate.

The legislative intent in the House and Senate versions of H.R. 3093 is set forth in the accompanying House report (H. Rept. 110-240) and the accompanying Senate report (S. Rept. 110-124).

The Senate amended the House bill with an amendment. The Senate amendment to the text deleted the entire House bill after the enacting clause and inserted the Senate bill. Division B of the amended bill resolves the differences between the House and Senate versions of H.R. 3093.

The language and allocations set forth in the House and Senate Reports should be complied with unless specifically addressed to the contrary in division B of the amended bill and this explanatory statement. Report language included by the House which is not changed by the report of the Senate or this explanatory statement and Senate report language which is not changed by this explanatory statement is approved by the Appropriations Committees. This explanatory statement while repeating some report language for emphasis, does not intend to negate the language referred to above unless expressly provided herein. In cases where the House or Senate has directed the submission of a report, such report is to be submitted to both House and Senate Appropriations Committees.

OPERATING PLAN REPROGRAMMING PROCEDURES

The Appropriations Committees continue to have a particular interest in being informed of reprogrammings which, although they may not change either the total amount available in an account or any of the purposes for which the appropriation is legally available, represent a departure from budget plans presented to the Committees in an agency’s budget justification, the basis of this appropriations Act.

Consequently, the departments, agencies, commissions, corporations and offices funded in this Act are directed to adhere to the guidelines set forth in section 505. Additionally, the Appropriations Committees are to be notified promptly of all reprogramming actions which involve less than the amounts mentioned in this section. If such actions would have the effect of significantly changing an agency’s funding requirements in future years, or if programs or projects specifically cited in this explanatory statement or accompanying reports of the House and Senate are affected by the reprogramming, the reprogramming must be approved by the Appropriations Committees regardless of the amount proposed to be reprogrammed. Furthermore, the departments, agencies, commissions, corporations and offices under the jurisdiction of this subcommittee are directed to consult with the Appropriations Committees regarding

reorganizations of offices, programs, and activities prior to the planned implementation of such reorganizations.

Finally, the Departments of Commerce and Justice as well the National Aeronautics and Space Administration and the National Science Foundation shall submit, within 60 days of enactment of this Act, operating plans, signed by the respective secretary, administrator, or agency head, for review by the Appropriations Committees of the House and Senate.

TITLE I

DEPARTMENT OF COMMERCE

INTERNATIONAL TRADE ADMINISTRATION

OPERATIONS AND ADMINISTRATION

(ITA)

The amended bill includes \$413,172,000 with offsetting collection fees of \$8,000,000 for a direct appropriation of \$405,172,000 for the International Trade Administration. The amended bill includes bill language designating the amount available for decision units within ITA.

The amended bill includes bill language, and adopts by reference report language as proposed by the Senate, regarding negotiations within the World Trade Organization. The amended bill includes report language as proposed by the Senate directing the Office of Travel and Tourism to submit a report detailing how gulf coast tourism recovery in States impacted by the 2005 hurricane is progressing.

The amended bill includes report language as proposed by the House directing ITA to submit a quarterly report regarding the ITA's travel expenditures. The amended bill includes report language as proposed by the Senate directing ITA to hire one additional full-time international trade specialist to assist small and medium sized companies in Louisiana.

the) Within funding provided, the amended bill includes \$4,700,000 for the National Textile Centers and for Textile/Clothing Technology Corporation, and \$1,316,000 for Auburn University for advanced research and development of novel polymetrics. The amended bill also includes \$446,500 for the Arkansas World Trade Center.

BUREAU OF INDUSTRY AND SECURITY

OPERATIONS AND ADMINISTRATION

The amended bill provides a total operating level of \$72,855,000 for the Bureau of Industry and Security instead of \$78,776,000 as proposed by the House and Senate.

ECONOMIC DEVELOPMENT ADMINISTRATION

ECONOMIC DEVELOPMENT ASSISTANCE PROGRAMS

The amended bill provides \$249,100,000 for the Economic Development Assistance Programs (EDAP), instead of \$270,000,000 as proposed by the House and \$250,000,000 as proposed by the Senate.

The amended bill rejects the Administration's proposal to consolidate EDA's program accounts into one new regional development account. By consolidating funding into one new regional development account, the Appropriations Committees are concerned that this will leave

gaps in providing much needed assistance to rural communities. Of the amounts provided, \$148,050,000 is for Public Works and Economic Development, \$42,300,000 is for Economic Adjustment Assistance, \$25,380,000 is for planning, \$9,400,000 is for technical assistance, including university centers, \$14,100,000 is for trade adjustment assistance, and \$470,000 is for research.

The explanatory statement restates the concern expressed in the House report of the effect of global climate change and supports policies and strategies which contribute to sustainable “green” construction and resources conservation. EDA is directed to give favorable consideration to proposals which incorporate such technologies and strategies which would reduce energy consumption, reduce harmful gas emissions and contribute to sustainability. The Appropriations Committees recognize that the incorporation of such capabilities in a project will result in initial increased construction cost, and therefore direct EDA to establish a Global Climate Change Mitigation Incentive fund (“Fund”) of \$9,400,000 to be used to accommodate project costs associated with such mitigation efforts. As directed in the House report, EDA is directed to provide a report and spend plan within 90 days of enactment of the Act.

As stated in the Senate report, the Appropriations Committees are concerned about the disbursement of funds to EDA’s six regional offices. Within 30 days after enactment of the Act, EDA is directed to distribute all EDAP funds to the EDA regional offices.

Finally, the Appropriations Committees agree with language in the House report and encourage EDA to incorporate into its project evaluation and selection criteria greater consideration for projects that diversify the local regional economy, support the development of new regional economic drivers and emerging industry clusters, advance innovation, entrepreneurship and technology transfer, and encourage the commercialization of university-led research and development.

SALARIES AND EXPENSES

The amended bill provides \$30,832,000 for salaries and expenses at EDA, instead of \$32,800,000 as proposed by both the House and the Senate.

As stated in the Senate report, the Appropriations Committees are supportive of EDA’s six regional offices. The funding level provided should be adequate to begin filling vacancies within the regional offices. EDA is directed to fill vacancies within the regional offices prior to any vacancies within headquarters.

MINORITY BUSINESS DEVELOPMENT AGENCY

MINORITY BUSINESS DEVELOPMENT

The amended bill provides \$28,623,000 for the Minority Business Development Agency, instead of \$31,225,000 as proposed by the House and \$30,200,000 as proposed by the Senate.

Within the amount provided, \$235,000 is for the preservation and revitalization of the Moore Street Market in Williamsburg, Brooklyn, New York.

Additionally, the Appropriations Committees reiterate the concern expressed in both the House and Senate reports about the Native American Business Enterprise Centers (NABECs). The Committees oppose any action to reduce the current number of NABECs and it is hoped that MBDA can continue to support at least eight centers nationwide.

ECONOMIC AND STATISTICAL ANALYSIS

SALARIES AND EXPENSES

The amended bill provides \$81,075,000 for this account, instead of \$86,500,000 as proposed by the House and \$85,000,000 as proposed by the Senate.

Expansion of Regional Data.—An additional \$1,175,000 is provided to the Bureau of Economic Analysis (BEA) to expand and improve timeliness of regional data to benefit state and local officials and economic development organizations. This funding will enable BEA to develop and publish gross metropolitan product data and accelerate the availability of county-level income data. BEA is directed to report on the status of this effort on a quarterly basis during fiscal year 2008.

Offshoring.—As stated in the House Report, there is concern with government's lack of adequate statistics on the effects of offshoring and outsourcing on U.S. jobs. There is evidence that the phenomenon is growing, and increasingly is displacing jobs of U.S. workers. Recent reports have suggested that the volume of imports may be underestimated and that this may cause estimates of growth in U.S. manufacturing production to be overestimated by as much as 40 percent. The 20 to 1 gap between data from India showing \$8,700,000,000 in sales of business, professional and technical services to the U.S. and its companies and BEA data identifying only \$420,000,000 in imports of such services raises additional questions. Even if new BEA initiatives narrow the dollar gap in services trade somewhat, it will still leave unanswered key questions about the effects of imported goods and services on U.S. blue collar and white collar jobs. The BEA is directed to work with other agencies as appropriate, to submit a report not later than April 1, 2008, which examines the effect of both offshoring work abroad and outsourcing of imported labor in the future. The report should examine the following: 1) how best to estimate the effects of offshoring on U.S. production and jobs; and 2) how companies doing the most offshoring in either absolute or relative terms have changed a) the size or occupational structure of their jobs in the U.S., b) the companies' purchases from other U.S. suppliers, c) growth of their R&D expenditures either domestically or abroad, d) their rates of profitability, and e) the trend in these companies' use of H-1B and L-1 visas. The report should consider the effects of offshoring on both blue-collar workers and white-collar workers.

Intangible Assets.— Within funds provided the Bureau of Economic Analysis is directed to enter into an agreement with the National Academy of Sciences to conduct a study relating to the investment of intangible assets. This study shall recommend steps to improve the measurement of intangible assets and their incorporation in the National Income and Product Accounts; identify and estimate the size of the Federal Government's investment in intangible assets; survey other countries' efforts to measure and promote investments in intangible assets; and recommend policies to increase investment in intangible assets.

Accurately Reflecting Economic Conditions. — Within funds provided the BEA is directed to enter into an agreement with the National Academy of Sciences to conduct a study on methods for collecting data regarding the status of the U. S. economy and determine whether the current data results in an overstatement of economic growth, domestic manufacturing output, and productivity.

BUREAU OF THE CENSUS

The amended bill includes a total operating level of \$1,230,244,000 for the Bureau of the Census, instead of \$1,222,244,000 as proposed by the House and \$1,246,644,000 as proposed by the Senate.

SALARIES AND EXPENSES

The amended bill provides \$202,838,000 for this account instead of \$196,838,000 as proposed by the House and \$226,238,000 as proposed by the Senate.

The amended bill provides \$24,000,000 for the Survey of Income and Program Participation (SIPP). The amended bill does not include language contained in the Senate Report on improved service sector measurements and instead directs the \$8,000,000 from the service sector measurements toward revitalization of the Survey of Income and Program Participation (SIPP).

PERIODIC CENSUSES AND PROGRAMS

The amended bill provides \$1,027,406,000 for this account instead of \$1,025,406,000 as proposed by the House and \$1,020,406,000 as proposed by the Senate. The amended bill includes \$797,114,000 for expenses related to the 2010 decennial census. The amended bill does not include \$5,500,000 for the American Community Survey (ACS) Methods Panel. As in the Senate Report, this funding is directed to higher priority programs because a recent review by the Government Accountability Office revealed that Census officials were not able to provide detailed action plans or costs associated with aspects of this program. The amended bill also does not include \$3,600,000 for the Master Address File (MAF). It should be noted that this reduction will have minimal impact as the Census Bureau will conduct a 100 percent address canvas in fiscal year 2009.

Partnerships. -The amended bill includes an additional \$9,100,000 for the Bureau of the Census to support partnership and outreach efforts in preparation for the 2010 Decennial Census with specific focus being placed on hard to reach populations. These funds should be used to hire additional personnel who have expertise in developing partnerships for the 2010 census, provide other support for Regional Partnership and Data Services Programs, and not less than \$1,000,000 for a national partnership program administered from Census headquarters. The census partnership program, which was not included in the budget request, is a vital component of the effort to obtain the most accurate decennial census count possible. The funding provided for the program will help enlist community leaders to encourage their constituencies to fill out their census forms, emphasizing the importance of the census to their local community and education system. This outreach is particularly important in communities that are difficult to count.

NATIONAL TELECOMMUNICATIONS AND INFORMATION ADMINISTRATION

SALARIES AND EXPENSES

The amended bill includes a total of \$17,466,000 for the National Telecommunications and Information Administration (NTIA), instead of \$23,581,000 as proposed by the House and \$18,581,000 as proposed by the Senate. NTIA should comply with language in the House Report on public safety communications equipment.

PUBLIC TELECOMMUNICATIONS FACILITIES, PLANNING AND CONSTRUCTION

The amended bill includes \$18,800,000 for Public Telecommunications Facilities, Planning and Construction, instead of \$21,728,000 as proposed by the House and \$20,000,000 as proposed by the Senate.

TECHNOLOGY OPPORTUNITIES PROGRAM

The amended bill does not provide funding for the Technology Opportunities Program (TOP) as proposed by the Senate.

UNITED STATES PATENT AND TRADEMARK OFFICE

SALARIES AND EXPENSES

The amended bill includes \$1,915,500,000 for the United States Patent and Trademark Office (USPTO) as proposed by the House and the Senate.

The amended bill concurs with language in the Senate Report requiring that, 60 days after the date of enactment of this Act, the USPTO shall submit to the House and Senate Appropriations Committees a spending plan for fiscal year 2008. This spending plan shall incorporate all carryover balances from previous fiscal years, and describe any changes to the patent or trademark fee structure.

The amended bill includes language that \$1,000,000 may be transferred to the National Intellectual Property Law Enforcement Coordination Council.

TECHNOLOGY ADMINISTRATION

SALARIES AND EXPENSES

The amended bill provides no funding for the Technology Administration as proposed by the Senate. The House had provided \$1,000,000 for close-out costs. It is the understanding of the Appropriations Committees that the Department has already begun the closing out of this organization.

NATIONAL INSTITUTE OF STANDARDS AND TECHNOLOGY

SCIENTIFIC AND TECHNICAL RESEARCH AND SERVICES

The amended bill includes \$440,517,000 for the Scientific and Technical Research and Services programs of the National Institute of Standards and Technology (NIST), instead of \$500,517,000 as proposed by the House and \$502,117,000 as proposed by the Senate. NIST is directed to submit a spend plan no later than 30 days after enactment of the Act for the programs funded by this appropriation. Further, NIST is directed to develop a new budget structure for the fiscal year 2009 budget which better reflects the organizational structure of the agency.

The amended bill provides \$893,000 for the New York Center for National Competitiveness in Nanoscale Characterization.

INDUSTRIAL TECHNOLOGY SERVICES

The amended bill includes \$154,840,000 for Industrial Technology Services (ITS), instead of \$201,819,000 as proposed by the House, and \$179,155,000 as proposed by the Senate.

Hollings Manufacturing Extension Partnership (MEP). — Of the amounts provided to ITS, \$89,640,000 is provided for MEP. The amended bill does not include \$4,000,000 for a pilot project under MEP, as described in the Senate report.

Technology Innovation Program (TIP). — Of the amounts provided to ITS, \$65,200,000 is for the Technology Innovation Program as authorized by Public Law 110-69. TIP is structured to fund high-risk, high reward research focused on broad national needs such as advanced automotive batteries, aquaculture, novel lightweight materials, and other emerging technologies. The funding provided for TIP will address mortgage obligations relating to projects created under the Advanced Technology Program (ATP). The amended bill also includes language to allow the TIP immediate access to an additional \$5,000,000 from deobligations and prior-year recoveries from ATP.

CONSTRUCTION OF RESEARCH FACILITIES

The amended bill provides \$160,490,000 for construction of research facilities, instead of \$128,865,000 as proposed by the House and \$150,900,000 as proposed by the Senate. NIST is directed to submit a spend plan no later than 30 days after enactment of the Act for activities funded by this appropriation. NIST is also directed to provide quarterly reports on the status and accounting of all construction projects.

Within the amounts provided, the amended bill includes \$51,262,000 for the following construction projects:

- Biotechnology Research Park, University of Mississippi, Jackson, MS 7,332,000

- Research, Technology and Economic Development Park, Mississippi State University, Starkville, MS 7,332,000
- Innovation and Commercialization Park, Infrastructure and Building Construction and Equipage, University of Southern Mississippi, Hattiesburg, MS 1,598,000
- Life Sciences Building, University of Alabama, Montgomery, AL 5,000,000
- Engineering and Science Center, University of South Alabama, Mobile, AL 30,000,000

Also, within the amounts provided, the amended bill includes \$30,080,000 for competitive grants for research science buildings. The research buildings should span all the applicable sciences, as they relate to the Department of Commerce. These grants shall be awarded to colleges, universities, and other non-profit science research organizations on a competitive basis. NIST is directed to report to the Appropriations Committees the criteria it will use in reviewing and ranking grant proposals.

NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION

OPERATIONS, RESEARCH, AND FACILITIES

(INCLUDING TRANSFERS OF FUNDS)

50

The amended bill includes \$2,859,277,000 for Operations, Research, and Facilities, including \$3,000,000 from the Coastal Zone Management Fund, instead of \$2,850,556,000 as proposed by the House and \$3,039,888,000 as proposed by the Senate. The amended bill includes a total direct obligation level of 2,941,277,000.

\$) Bill language is included providing for \$5,000,000 for direct obligations from recoveries of prior year obligations; providing \$235,000 within NMFS, in no year funding subject to section 209 of P.L. 108-447; placing a limitation on the amount available for corporate services administrative support costs to ~~\$206,436,000~~; placing a limitation on amounts to be paid to the Department of Commerce working capital fund, including the General Counsel to \$34,164,000; limiting grant amounts to States and placing other restrictions on Coastal Zone Management grants; and providing \$13,395,000 for the alleviation of economic impacts associated with Framework 42 on Massachusetts groundfish fishery.

206,436,000

Of the amounts provided, \$467,929,910 is for the National Ocean Service. These funds are distributed as follows:

NATIONAL OCEAN SERVICE OPERATIONS, RESEARCH, AND FACILITIES	
(In thousands of dollars)	
	Conference Recommendation
Navigation Services:	
Mapping & Charting	44,371,000
Joint Hydrographic Center	7,247,000
Electronic Navigational Charts	4,392,000
Shoreline Mapping	2,366,000
Address Survey Backlog/Contracts	26,355,000
DUNE System Assessment & Shoreline Change Analysis	869,500
Geodesy	21,729,000
National Height Modernization	5,000,000
Geodetic Survey - KY	376,000
Geodesy/Height Modernization - IL	352,500
Geospatial Data Analysis Center, AL	423,000
Alabama Statewide GIS mapping program, AL	423,000
Coastal and ocean navigation and hazards assistance, SC	188,000
Tide & Current Data	26,168,000
Tide & Current Data in Alaska	1,316,000
Total, Navigation Services	141,576,000
Ocean Resources Conservation and Assessment:	
Ocean Assessment Program (OAP):	
Integrated Ocean Observing System	26,360,000
Alliance for Coastal Technologies	940,000
Coastal Services Centers	23,426,400
Coastal Storms	1,464,150
Coop Institute for Coastal and Estuarine Enviro Tech (CICEET)	6,502,778
Ocean Health Initiative	2,928,300
Coral Reef Programs	29,283,000
Gulf Of Mexico Regional Collaboration	4,880,500
Lake Erie Monitoring, Bowling Green State University, OH	352,500
Louisiana Environmental Research Center	352,500
Coastal Restoration & Enhancement w/ Science & Tech (CREST)	1,518,100
Regional Geospatial Modeling Grants	8,000,000
Subtotal, Ocean Assessment Program (OAP)	106,008,228

Response and Restoration:	
Response and Restoration Base	11,518,000
Suisin Bay, CA Assessment Study	1,500,000
Estuary Restoration Program	1,159,607
Marine Debris	3,172,325
Aquidneck Island Westside Plan	188,000
Aquatic Resources Environmental Initiative, Eastern KY PRIDE	1,128,000
Marine Debris Removal - Alaska	1,316,000
Pribilof Islands Cleanup and Economic Development	5,297,000
Subtotal, Response and Restoration	25,278,932
National Centers for Coastal Ocean Science (NCCOS):	
NCCOS Headquarters	4,881,000
Competitive Research	11,713,000
Center for Coastal Environmental Health & Biomedical Research	13,665,000
Oxford Cooperative Lab	4,392,000
Center for Sponsored Coastal Research	2,635,000
Center for Coastal Monitoring & Assessment	4,474,000
Center for Coastal Fisheries and Habitat Research	5,605,000
Marine Env. Health Research Lab - MEHRL	4,100,000
Subtotal, National Centers for Coastal Ocean Science	51,465,000
Total, Ocean Resources Conservation and Assessment	182,752,160
Ocean and Coastal Management:	
CZM Grants	64,423,000
CZM Program Administration	6,735,000
CZM Non-Point Implementation Grants	3,904,000
National Estuarine Research Reserve System	16,404,000
Marine Protected Areas	1,464,000
Marine Sanctuary Program Base	46,853,000
Maritime Museum, AL	470,000
Point Loma Enhanced Monitoring Program, CA	893,000
Northwest Straits Citizens Advisory Commission, WA	1,562,750
Urban Coast Institute, NJ	893,000
Total, Ocean and Coastal Management	143,601,750
GRAND TOTAL NOS	467,929,910

The amended bill provides an additional \$1,410,000 above the budget request to allow NOAA to begin supporting the entire maintenance and operations of the Physical Oceanographic Real-Time System (PORTS), not just the system's design and installation, as authorized by Public Law 107-372. The Appropriations Committees believe these operations, which exist as a partnership between NOAA and local port authorities, have been an extremely valuable tool for providing information for safe vessel navigation and data for weather and coastal monitoring used by other national programs. As such, NOAA is directed to include sufficient and complete operational support for all of the national PORTS sites in future budget requests.

The amended bill includes \$1,500,000 for NOAA to conduct a sampling and analysis study on Suisun Bay, CA. The Appropriations Committee are greatly concerned about the environmental impact of the federally-owned obsolete vessels in Suisun Bay, CA on the marine environment. Funding may be used for activities relating to sampling and analysis to better understand toxic contamination caused by the vessels, and developing appropriate remediation recommendations that use the best available science and environmental practices.

The Appropriations Committees recognize that NOAA, as directed, has initiated the consortium of sensor testbeds referred to as the Alliance for Coastal Technologies (ACT) and that this effort is providing vital services in the developing Integrated Ocean Observing System. NOAA, through the National Ocean Service, is directed to establish a Cooperative Institute for the purpose of advancing and sustaining this essential capability which is executed on a regional basis. NOAA is expected to identify funds for this capability ~~within the FY09 budget process.~~ Further, the Appropriations Committees strongly recommend that NOAA work with other federal agencies to expand both the capabilities and funding of this effort.

NOAA is directed to enter into an agreement with the National Academy of Sciences to initiate a study on acidification of the oceans. This study, authorized by the Magnuson-Stevens Fishery Conservation and Management Act of 2006, shall examine the impacts of ocean acidification on the United States.

fiscal year 2009

The amended bill adopts the House position of a specific amount for the administration of CZM grants instead of the Senate position which provided not less than 10 percent from the overall grant program.

Within amounts provided, the amended bill includes \$708,575,250 for the National Marine Fisheries Service.

These funds are distributed as follows:

NATIONAL MARINE FISHERIES SERVICE OPERATIONS, RESEARCH, AND FACILITIES	
(In thousands of dollars)	
	Conference Recommendation
Marine Mammals, Marine Turtles, and Marine Protected Species:	
Protected Species Research and Management Programs:	33,187,000
Marine Mammal Protection (MMP)	40,455,000

Western Pacific Pelagic Fisheries Research, HI	1,116,250
Fishing Mortality Education Program, AL	94,000
Total, Other Activities Supporting Fisheries	83,901,400
GRAND TOTAL NMFS	708,575,250

The amended bill provides \$25,379,000 for Fisheries Habitat Restoration, which is \$5,893,000 below the President's requested level. The Appropriations Committees recognize that significant administration priorities are embedded in this account and direct NOAA to determine the level of funding necessary for each of those priorities within the funding provided, without cutting into base program funding. The Committees further understand that the Penobscot River Habitat Restoration project is a timely opportunity to leverage current regional resources to revitalize this large-scale marine and estuarine habitat. However, the Committees have strong concerns about NOAA taking the full, long-term financial lead in such a large, cross-agency project, especially since a majority of the requested funds will be spent purchasing privately-owned dams. Though the Committees recognize NOAA's expertise in smaller dam removal and fish passageway projects, this project is an order of magnitude larger than any previous project undertaken by the agency, and pushes the limits of the agency's authority to use funds from NMFS's operations account to purchase multi-million dollar facilities. The Appropriations Committees admonish the administration for carelessly exposing NMFS's base funding to future large-scale, redevelopment projects that would jeopardize the agency's financial support for standard national fisheries activities and responsibilities. Given that this is a multi-year project, NOAA is directed to coordinate with the Departments of the Interior and Energy, and the U.S. Army Corps of Engineers to determine an appropriate role for the agency solely as a habitat restoration advisor to its Federal and State partners, and eliminate the agency's questionable role as a broker for future large-scale, riverine construction projects. In future years, the Appropriations Committees will support NOAA's participation in habitat restoration

projects, which is an on-going, environmental assessment process, but will no longer appropriate funds from the ORF account to purchase costly, private dams.

The amended bill includes \$6,697,500 for assistance related to the fishery impacts associated with the creation of the Papahānaumokuākea Marine National Monument in the State of Hawaii. For more than 30 years, fishing in the Monument area has been carefully managed by the Western Pacific Fishery Management Council based on the best available scientific information. During that time, limited and highly regulated sustainable fisheries have provided lobsters and bottomfish to Hawaii and U.S. consumers. Due to both mandatory and voluntary conservation measures undertaken by these fishery participants, the area is widely considered a near-pristine marine ecosystem. The Presidential proclamation will end all commercial fishing in the Monument as of June 15, 2011. The amended bill provides specific authorization to the Secretary of Commerce to provide compensation to fishery participants who will be displaced by the 2011 closure.

Additionally, the amended bill provides \$13,395,000 to the Massachusetts Division of Marine Fisheries to alleviate economic impacts associated with Framework 42 regulations on the Massachusetts groundfish fishery.

The Appropriations Committees are aware that devices such as the modified Jones-Davis and extended funnel bycatch reduction devices are intended to help the fishermen comply with the requirement to use bycatch reduction devices (BRD) while retaining their shrimp catch. It is the Appropriations Committees understanding that NOAA spent approximately \$1,100,000 in fiscal year 2007 to distribute BRDs. NOAA is encouraged to increase the number of devices it plans to distribute for fiscal year 2008, especially for shrimpers impacted by Hurricanes Katrina and Rita.

The amended bill provides \$1,786,000 for oyster restoration in the Chesapeake Bay and adopts the Senate position with regard to the use of those funds. The funds provided for oyster restoration in the Maryland waters of the Chesapeake Bay shall be for on-the-ground and in-the-water restoration efforts and shall not be used for administrative costs, including banquets or salaries.

Further, the Appropriations Committees are supportive of restoration of headwater streams to improve Bay water quality.

Finally, NOAA is urged to continue to support research activities including those related to the blue fin tuna.

Within the funds provided, the amended bill includes \$387,942,300 for the Office of Oceanic and Atmospheric Research.

These funds are distributed as follows:

OCEANIC AND ATMOSPHERIC RESEARCH OPERATIONS, RESEARCH AND FACILITIES	
(In thousands of dollars)	
	Conference Recommendation
Climate Research:	
Laboratories & Cooperative Institutes	53,500,000
Climate Observations & Services	8,068,000

Total, Ocean, Coastal & Great Lakes Research	130,400,850
GRAND TOTAL OAR	387,942,300

Although the Appropriations Committees approved the overall OAR reprogramming that permitted the merger of Ocean Exploration (OE) and the National Undersea Research Program (NURP) in 2006, the Appropriations Committees await a formalized plan detailing the breakout and vision of any new structure. Given the diverse portfolios and direction of NURP and OE, the Appropriations Committees are concerned about how financially combining these two unique programs will impact their contributions to NOAA's mission. Therefore, the amended bill provide separate funding for NURP and OE as detailed in the Oceanic and Atmospheric Research chart. If the administration continues to propose combining NURP and OE in future years, NOAA is directed to provide a strategic and financial plan for such a merger with the administration's fiscal year 2009 budget request. NOAA is directed to distribute the funds provided for NURP equally among each of the existing six NURP centers. The Appropriations Committees recognize and support NOAA's desire to develop a comprehensive extramural and intramural program of ocean exploration, advanced technology development, strategic research and education. The Committees recognize the benefits of an east coast consortium approach and direct the east coast NURP Centers to develop a synergistic plan for undersea research, technology development and education beginning in fiscal year 2009.

The Appropriations Committees recognize the need for additional low level radar coverage in Wyoming and along the outer coast of Washington State. The amended bill provides \$94,000 for NOAA and the National Weather Service to work with the University of Massachusetts and the National Science Foundation, under the umbrella of the Collaborative Adapting Sensing of the Atmosphere (CASA) program, to conduct a study to determine the applicability to northeastern Wyoming and other regions the feasibility of integrating a number of small-scale Doppler radar technologies into future National Weather Service observing systems.

The Appropriations Committees are encouraged by NOAA's request to increase the Nation's research knowledge within the field of aquaculture and direct NOAA to distribute the funding provided equally among three regions: Atlantic, Pacific, and Gulf of Mexico.

Finally, the Appropriations Committees support measurement and modeling of speciated mercury by the Air Resources Laboratory.

Within funds provided, the amended bill includes \$805,293,480 for the National Weather Service. These funds are distributed as follows:

NATIONAL WEATHER SERVICE OPERATIONS, RESEARCH, AND FACILITIES	
(In thousands of dollars)	
	Conference Recommendation
Observations, Forecasts, and Communications:	
Local Warnings and Forecasts:

AWIPS	36,863,000
NWSTG Backup - CIP	5,380,000
Total, Systems Operation & Maintenance	96,339,000
GRAND TOTAL NWS	805,293,480

The Appropriations Committees continue to remain concerned about radar coverage in the State of North Dakota and direct NOAA to maintain staffing and operations at the Williston Radar site through fiscal year 2008.

The amended bill provides \$5,358,000 within the National Weather Service for the Urbanet program's phase III. Of the additional funds provided: \$1,339,500 is for certification costs of adding new stations in 10 cities and \$4,018,500 is for ongoing operating costs. Data from Urbanet should be made available to not less than 25 National Weather Service Forecast Offices by the end of fiscal year 2008. In addition, NOAA should provide the Appropriations Committees with a report not more than 45 days after enactment which identifies additional operating costs, including maintenance on weather stations established in phases I and II of Urbanet, NOAA research costs on plume modeling, and transition costs so that National Weather Service can utilize MADIS as an operational system. Finally, the NOAA should provide the Committees with a multi-year strategic plan concurrently with the 2009 budget submission for

incorporating Urbanet, including migration to not less than the largest 40 metropolitan areas, and utilization by all applicable National Weather Service forecast offices.

Within the funds provided for the Local Warnings and Forecast Base, NOAA is directed to examine ways to provide supplemental weather data to the FHWA and NOAA for enhanced planning, situational avoidance, operational support and predictive modeling to improve the safety, efficiency and reliability of our highways.

Within the funds provided, the amended bill provides \$179,153,750 for the National Environmental Satellite, Data, and Information Service.

These funds are distributed as follows:

NATIONAL ENVIRONMENTAL SATELLITE, DATA & INFORMATION SERVICE OPERATIONS, RESEARCH, AND FACILITIES	
(In thousands of dollars)	
	Conference Recommendation
Environmental Satellite Observing Systems:

Rounding	
GRAND TOTAL PS	392,382,310

While the Appropriations Committees remain concerned about the management issues at NOAA, they do not adopt the Senate report language regarding a study by the National Academy of Public Administration.

The amended bill provides \$9,673,562 for the B-WET programs, of which \$2,350,000 is for the California B-WET. The Appropriations Committees enthusiastically believe in the goals of this program and continue to support the existing B-WET programs in California, the Chesapeake Bay region, and in Hawaii. The amended bill provides additional resources for NOAA to expand the program into other regions, including the Northern Gulf of Mexico, the Pacific Northwest, and New England.

This account consolidates all the items within the administration’s request for “Marine Operations and Maintenance”, including the administration’s request of \$5,600,000 for operations and maintenance of the *Okeanos* research vessel. These funds are appropriated as a direct adjustment to the base of the Marine Operations account without supporting the requested \$4,600,000 transfer of funds from the Oceanic and Atmospheric Research account. Far too often NOAA’s Marine and Aviation Operations rely on transfers of funds from NOAA line offices for non-science vessel operations, which distort the true costs of basic operations for these valuable, national assets. In future fiscal years, NOAA is required to provide a budget request for basic vessel operations that does not include funding transfers from other line offices for basic vessel operations.

NOAA is directed to provide to the House and Senate Appropriations Committees, within 18 months of enactment of this Act, a study that evaluates the design and operations of future research vessels in the form of a NOAA Survey Vessel for multi-mission operations, to maximize on-site activities and modularize for versatile platform availability.

NOAA is directed to increase the number of officers authorized to serve within the ranks of the NOAA Commissioned Officer Corps from 299 to 321.

PROCUREMENT, ACQUISITION AND CONSTRUCTION

The amended bill provides \$979,207,000 for Procurement, Acquisition and Construction instead of \$1,039,098,000 as proposed by the House and \$1,059,000,000 as proposed by the Senate.

These funds are distributed as follows:

PROCUREMENT, ACQUISITION AND CONSTRUCTION	
(In thousands of dollars)	
	Conference Recommendation
National Ocean Service:	
Coastal and Estuarine Land Protection Program (no more than 3% admin.)	8,000,000

Temporary Berthing for HENRY B. BIGELOW	976,000
Subtotal, OMAO Fleet Replacement	5,259,000
Total, Program Support - PAC	28,422,000
GRAND TOTAL PAC	979,207,000

The amended bill provides \$8,000,000 for the CELCP program. The Appropriations Committees are pleased that the program has migrated towards a 100 percent competitive, merit-based selection process. The amended bill does not adopt Senate language directing NOAA to reopen the 2008 competition.

It is noted that the fiscal year 2008 budget request included funding for the Hyperspectral Environmental Suite (HES) which was cancelled from the GOES-R program in September 2006. The funding provided in the amended bill for GOES-R has been reduced accordingly.

The Appropriations Committees remain concerned and frustrated with regard to NOAA's satellite programs. The Committees firmly believe that continuous oversight by the Congress, specifically by the Appropriations Committees, is necessary given NOAA's recent history in procuring satellite systems. The Appropriations Committees are aware that a recent Government Accountability Office (GAO) report indicates that independent cost estimates for the GOES-R satellite program have increased by \$2,000,000,000. As a result, the amended bill includes a general provision to the bill that is similar to the Defense Department's Nunn-McCurdy notification procedure. In addition, NOAA is directed to provide quarterly updates to the Appropriations Committees regarding all of its satellite programs, including staffing plans, budget, and technical risks.

Fish and Wildlife Coordination Act. — The funds included in the amended bill for the Mill Creek, Wickford Cove Conservation project will be used expressly to acquire lands or interest in lands that include significant conservation, recreation, ecological, historical or aesthetic values.

PACIFIC COASTAL SALMON RECOVERY

The amended bill provides \$67,000,000 for the Pacific Coastal Salmon Recovery Fund, instead of \$64,825,000 as proposed by the House and \$90,000,000 as proposed by the Senate.

COASTAL ZONE MANAGEMENT FUND

(INCLUDING TRANSFER OF FUNDS)

The amended bill includes language proposed by the House and Senate transferring not to exceed \$3,000,000 from the Coastal Zone Management Fund to the "Operations, Research, and Facilities" account.

FISHERIES FINANCE PROGRAM ACCOUNT

The amended bill includes language to allow for NOAA to obligate funds for Individual Fishing Quota loans and traditional direct loans.

DEPARTMENTAL MANAGEMENT

SALARIES AND EXPENSES

The amended bill provides \$44,294,000 for this account, instead of \$18,693,000 as proposed by the House and \$53,193,000 as proposed by the Senate. Within the amount provided, the amended bill includes funds for the blast mitigation initiative for the Herbert C. Hoover Building (HCHB). The amended bill concurs with the Department's recommendation that the National Medal of Technology shall be managed by the National Institute of Standards and Technology (NIST).

HCHB RENOVATION AND MODERNIZATION

The amended bill includes \$3,722,000 for the HCHB Renovation, instead of \$3,364,000 as proposed by the House and \$5,100,000 as proposed by the Senate. Within the funds provided the following project is funded: \$714,400 is for the National Aquarium, Washington, DC, for HCHB rental payments and cost of planning and design of new space within HCHB.

OFFICE OF INSPECTOR GENERAL

The amended bill includes \$22,020,000, instead of \$23,426,000 as proposed by the House and Senate for the Office of Inspector General.

NATIONAL INTELLECTUAL PROPERTY LAW ENFORCEMENT COORDINATION COUNCIL

The amended bill does not include funding under this heading for the National Intellectual Property Law Enforcement Coordination Council. Instead, the amended bill includes authority that the United States Patent and Trademark Office may transfer \$1,000,000 to the Departmental Management account for costs associated with the National Intellectual Property Law Enforcement Coordination Council.

GENERAL PROVISIONS - DEPARTMENT OF COMMERCE

(INCLUDING TRANSFER OF FUNDS)

The amended bill includes the following General Provisions for the Department of Commerce:

Section 101 – The amended bill includes section 101 making Department of Commerce funds available for advanced payment only upon certification of officials designated by the Secretary that such payments are considered to be in the public interest.

Section 102 - The amended bill includes section 102 making appropriations for the Department for Salaries and Expenses available for hire of passenger motor vehicles, and for services, uniforms and allowances as authorized by law.

Section 103 – The amended bill includes section 103 providing authority to transfer funds between Department of Commerce appropriation accounts and requiring notification to the Committees of certain actions.

Section 104 - The amended bill includes section 104 providing that any costs incurred by the Department in response to funding reductions shall be absorbed within total budgetary resources available.

Section 105 – The amended bill includes section 105 extending guarantee authority and making appropriations for salaries and administrative expenses to administer the Emergency Steel Loan Guarantee Program available until expended.

Section 106 – The amended bill includes section 106 permanently prohibiting the use of any appropriated funds to trademark the phrase “Last Best Place.”

Section 107 – The amended bill includes section 107 providing authority for ITA to use appropriated funds for sequestered North American Free Trade Act panelists.

Section 108 – The amended bill includes section 108 extending the Department of Commerce’s personnel demonstration project.

Section 109 – The amended bill includes section 109 making technical corrections related to the elimination of the Technology Administration.

Section 110 – The amended bill includes section 110 authorizing the Secretary of Commerce to prescribe and enforce standards or regulations affecting safety and health in the context of scientific and occupational diving with the National Oceanic and Atmospheric Administration.

Section 111 – The amended bill includes section 111 providing authority for a voluntary fishing capacity reduction program.

Section 112 – The amended bill includes section 112 establishing reporting requirements for the National Oceanic and Atmospheric Administration with regard to its satellite acquisition programs where cost estimates exceed 20 percent above initial estimates.

Section 113 – The amended bill includes section 113 authorizing the Secretary to develop and maintain a list of vessels and owners engaged in illegal, unreported or unregulated fishing.

Section 114 – The amended bill includes section 114 providing for the establishment of the “Climate Change Study Committee” to investigate and study issues relating to global climate change and the organization by the National Academy of Sciences of a Summit on Global Climate Change.

TITLE II

DEPARTMENT OF JUSTICE

GENERAL ADMINISTRATION

SALARIES AND EXPENSES

The amended bill includes \$97,832,000 for General Administration, Salaries and Expenses, instead of \$54,527,000 as proposed by the House and \$74,777,000 as proposed by the Senate.

The following displays the amended bill for each office:

(in thousands of dollars)

Department Leadership:	
Attorney General	\$5,260
Deputy Attorney General	4,814
Office of Privacy and Civil Liberties	380
Associate Attorney General	1,767
Subtotal	12,221
Intergov Relations/External Affairs:	
Public Affairs	2,858
Legislative Affairs	3,598
Intergovernmental and Public Liaison	927
Subtotal	7,383
Exec Support/Prof Resp:	
Legal Policy	5,601
Professional Responsibility	5,801
Subtotal	11,402
Justice Management Division	66,826
TOTAL General Administration	97,832

Gangs.—As stated in the House Report, there is concern with the threats posed by the growth of violent street gangs. The Attorney General is directed to submit a report on the growth of violent gangs in suburban areas that may not have the resources to fight gangs that large cities do. The report should address specific gangs, drug trafficking organizations, the regions in which they operate, and the federal resources allocated to containing these gangs. The report shall be submitted no later than April 1, 2008.

The amended bill does not include language contained in the Senate Report on the National Drug Intelligence Center.

JUSTICE INFORMATION SHARING TECHNOLOGY

The amended bill provides \$85,540,000 for this account instead of \$100,500,000 as proposed by the House and \$90,795,000 as proposed by the Senate.

The amended bill includes not less than \$19,740,000,000 for the unified financial management system instead of \$21,000,000 as proposed by the House and Senate.

TACTICAL LAW ENFORCEMENT WIRELESS COMMUNICATIONS

The amended bill provides \$74,260,000 for this account instead of \$81,353,000 as proposed by the Senate and \$76,353,000 as proposed by the House.

ADMINISTRATIVE REVIEW AND APPEALS

The amended bill provides \$240,649,000 in direct appropriations for this account, instead of \$247,499,000 as proposed by the House and the Senate. The amended bill includes language designating \$3,760,000,000 for the Legal Orientation Program, instead of \$4,000,000 as proposed by the Senate.

The amended bill includes \$8,000,000 in emergency funds for the Executive Office for Immigration Review to provide additional attorneys and judges for the Board of Immigration Appeals to adjudicate cases and appeals resulting from increased immigration enforcement actions.

DETENTION TRUSTEE

The amended bill provides \$1,225,920,000 for the Detention Trustee, instead of \$1,265,872,000 as proposed by the Senate and \$1,260,872,000 as proposed by the House.

OFFICE OF INSPECTOR GENERAL

The amended bill provides \$70,603,000 for the Office of Inspector General (OIG), instead of \$74,708,000, as proposed by the House and \$73,700,000, as proposed by the Senate.

The Appropriations Committees remain deeply concerned by management and oversight problems within the Justice Department. The OIG is directed to continue to investigate and report to the Appropriations Committees on the firings of U.S. Attorneys, the FBI's use of National Security Letters and the FBI's new case management system known as Sentinel, as directed in the House report.

The amended bill also includes bill language directing the OIG to conduct an audit and report to the Appropriations Committees on all expenses of the legislative and public affairs offices of the Department of Justice, as directed by the Senate.

The OIG is directed to audit competitive National Institute of Justice programs, projects and activities, including contracts and grants, awarded in the last three fiscal years. The audit shall examine whether these grants and contracts were awarded through a fair and open competitive process. The audit shall identify costs related to any grant or contract that are administrative in nature and provide a detailed breakout of how those costs were determined.

UNITED STATES PAROLE COMMISSION

SALARIES AND EXPENSES

The amended bill provides \$11,462,000 for the United States Parole Commission, instead of \$12,194,000, as proposed by both the House and the Senate.

LEGAL ACTIVITIES

SALARIES AND EXPENSES, GENERAL LEGAL ACTIVITIES

The amended bill provides \$745,549,000 for General Legal Activities, instead of \$750,584,000 as proposed by the House and \$753,000,000 as proposed by the Senate.

General Legal Activities
(in thousands of dollars)

<i>Division</i>	<i>Amended Bill Amount</i>
Solicitor General	\$ 9,883
Tax Division	92,781
Criminal Division	148,979
Civil Division	250,115
Environment and Natural Resources	99,365
Office of Legal Counsel	6,184
Civil Rights Division	114,450
INTERPOL- USNCB	23,252
Office of Dispute Resolution	541
Total	<u>\$745,549</u>

The amended bill includes \$10,000,000 in emergency funds for the Civil Division Office of Immigration Litigation to provide 86 additional attorneys to address appeals resulting from increased immigration enforcement actions.

~~THE NATIONAL CHILDHOOD VACCINE INJURY ACT~~

50

The amended bill includes a reimbursement of \$6,833,000 from the Vaccine Injury Compensation Trust Fund to the Department of Justice, as proposed by both the House and the Senate.

SALARIES AND EXPENSES, ANTITRUST DIVISION

The amended bill provides \$147,819,000 for the Antitrust Division, instead of \$155,097,000 as proposed by both the House and the Senate. This appropriation is offset by \$139,000,000 in pre-merger filing fee collections, resulting in a direct appropriation of \$8,819,000.

SALARIES AND EXPENSES, UNITED STATES ATTORNEYS

The amended bill provides \$1,754,822,000 for the United States Attorneys, instead of \$1,748,572,000 as proposed by the House, and \$1,777,822,000, as proposed by the Senate.

The amended bill includes programmatic increases to strengthen prosecutions of child exploitation, violent gangs, illegal immigration and human trafficking. Within the funds made available, \$5,000,000 is provided to support the hiring of additional assistant U.S. Attorneys to prosecute offenses related to the sexual exploitation of children, as authorized by the Adam Walsh Child Protection and Safety Act of 2006.

The amended bill includes \$7,000,000 in emergency funds for the United States Attorneys for criminal and civil litigation resulting from increased immigration enforcement actions.

The amended bill does not include a general provision in the Senate bill regarding Operation Streamline. The Appropriations Committees recognize the importance of Operation Streamline as a highly effective law enforcement operation for detaining, prosecuting, and deporting illegal aliens who cross the U.S.-~~Mexican~~ border illegally. Initiated in December 2005 in Del Rio, TX, Operation Streamline is a multi-agency law enforcement initiative that involves the U.S. Attorney's Office, Customs and Border Protection, Immigration and Customs Enforcement, the U.S. Marshals Service and dedicated Federal judges and magistrates of the Western District of Texas. Operation Streamline has instituted a zero-tolerance policy for illegal entry. The Department of Justice is directed to report to Congress on the impact of Operation Streamline and on the costs to implement law enforcement operations identical to Operation Streamline in all districts along the U.S.-Mexico border, and hire or reassign U.S. Attorneys and support staff to expand this program.

Mexico

UNITED STATES TRUSTEE SYSTEM FUND

The amended bill provides \$209,763,000 for the United States Trustee System Fund, instead of \$189,000,000 as proposed by the House and \$231,899,000 as proposed by the Senate. The amended bill includes language authorizing the use of \$184,000,000 in offsetting collections and the use of \$20,000,000 in prior year unobligated balances. In addition, \$5,000,000 is derived from interest in U.S. Securities, resulting in a direct appropriation of \$763,000.

SALARIES AND EXPENSES, FOREIGN CLAIMS SETTLEMENT COMMISSION

The amended bill includes \$1,606,000, for the Foreign Claims Settlement Commission, instead of \$1,709,000 as proposed by both the House and the Senate.

UNITED STATES MARSHALS SERVICE

SALARIES AND EXPENSES

The amended bill provides \$864,219,000 for the United States Marshals Service (USMS) Salaries and Expenses account, instead of \$883,766,000 as proposed by the House, and \$904,705,000 as proposed by the Senate.

The amended bill provides \$354,297,000 for judicial and courthouse security, which includes \$11,437,000 to provide additional deputy marshals for judicial security.

The amended bill includes \$15,000,000 in emergency funds for the USMS for prisoner transportation, defendant productions and courthouse security resulting from increases in immigration-related Federal court proceedings. This funding will support the hiring of 100 additional deputy marshals.

Within funds made available, \$2,820,000 is provided to address substandard health and security conditions in the prisoner holding facilities occupied by the USMS in the Moultrie Courthouse Building of the District of Columbia. The USMS and the District of Columbia Courts are strongly urged to work together in a coordinated manner to develop a renovation and improvement plan for these facilities, as identified by the Office of Inspector General in report I-2007-008-R.

Within funds provided, \$2,820,000 is made available to establish new or expand existing regional fugitive task forces. Distribution of these resources should be based on the fugitive workload, giving emphasis to the workload created by the Adam Walsh Child Protection and Safety Act of 2006.

CONSTRUCTION

The amended bill provides \$2,304,000 for the United States Marshals Service Construction account, instead of \$2,451,000 as proposed by the House, and \$8,015,000 as proposed by the Senate.

FEES AND EXPENSES OF WITNESSES

The amended bill provides \$168,300,000 for Fees and Expenses of Witnesses, as proposed by both the House and the Senate.

SALARIES AND EXPENSES, COMMUNITY RELATIONS SERVICE

The amended bill provides \$9,794,000 for the Community Relations Service, as proposed by the House, instead of \$10,230,000 as proposed by the Senate.

Region Six, which encompasses Louisiana, Texas, Arkansas, New Mexico, and Oklahoma, recently experienced racial unrest in Jena, Louisiana and there is concern about the slow response of the Community Relations Service to this incident. For this reason, the Community Relations Service is urged to send additional conciliators for this region to ensure that the area has sufficient staff and resources for the future.

ASSETS FORFEITURE FUND

The amended bill provides \$20,990,000 for the Assets Forfeiture Fund, as proposed by both the House and the Senate.

NATIONAL SECURITY DIVISION

SALARIES AND EXPENSES

The amended bill includes \$73,373,000, for the National Security Division, instead of \$78,056,000 as proposed by both the House and the Senate.

INTERAGENCY LAW ENFORCEMENT

INTERAGENCY CRIME AND DRUG ENFORCEMENT

The amended bill includes \$497,935,000, for Interagency Crime and Drug Enforcement, instead of \$509,154,000 as proposed by both the House and the Senate.

The amended bill includes the following amounts to reimburse agencies for their costs of participating in OCDETF task forces:

REIMBURSEMENT BY AGENCY (in thousands of dollars)

Drug Enforcement Administration	\$193,264
Federal Bureau of Investigation	134,051
United States Marshals Service	8,272
Bureau of Alcohol, Tobacco, Firearms and Explosives	11,151
United States Attorneys	130,726
Criminal Division	2,653
Tax Division	961
Administrative Support	5,388
OCDETF Executive Office (OFC)	<u>11,469</u>
Total	\$497,935

FEDERAL BUREAU OF INVESTIGATION

SALARIES AND EXPENSES

The amended bill provides \$6,493,489,000 for the Federal Bureau of Investigation (FBI) Salaries and Expenses account, instead of \$6,503,611,000 as proposed by the House, and \$6,395,250,000 as proposed by the Senate.

Fixing the Budget Shortfall.—The Appropriations Committees concur with language in the House Report expressing frustration with the composition of the Department of Justice budget request for the FBI that used as a base the average of the House and Senate recommendations for fiscal year 2007 less one percent. The 2007 level for the FBI provided by the 110th Congress supported the full Administration request plus additional funds for the 2007 pay raise. It was expected that the Administration would recalculate the Department of Justice's current rate budget needs for fiscal year 2008 based on the actual 2007 base. The effect of the Administration's 2008 budget gimmick is that agencies' fiscal year 2008 budget requests are not sufficient to fully fund the adjustments to base and program increases requested in fiscal year 2008. For the FBI's salaries and expenses account the result is a deficit of \$139,170,000. If funded at the President's request level, the FBI would be required to address this shortfall through imposition of a limited hiring freeze, imposition of across-the-board reductions to operational support programs, and deferment of program enhancements. The work of the FBI in counterterrorism and criminal investigations is too important to be subjected to budget gimmicks and therefore funds have been realigned to mitigate the impact of the salaries and expenses shortfall. The FBI is directed to realign \$25,009,000 within existing funds allocated to the Sentinel program to address this shortfall; to make available \$18,000,000 from remaining funds previously made available to FBI Salaries and Expenses under P.L. 109-148 to further account for the budget shortfall; and to apply funds ~~provided above the budget request~~ to this shortfall.

redivided

NGI-IAFIS and IDENT/IAFIS Interoperability.—The budget gimmick would also have impacted Criminal Justice Information Systems (CJIS) initiatives, therefore the FBI is also directed to use \$11,000,000 from the CJIS prior-year user fee collections to fund improvements for IDENT/IAFIS Interoperability initiatives impacted by the budget gimmick, available until

expended. In addition, \$47,000,000 of enhancements requested in the President's Budget for Next Generation Identification (NGI), Regional Data Exchange (R-DEx), IDENT/IAFIS Interoperability, and Combined DNA Index System (CODIS) are funded with prior-year user fee collections. As in previous years, under no circumstances is the FBI to divert funding collected through the CJIS user fee for any purpose other than CJIS, its refreshment plan, or a subsequent modernization plan for the current facility.

Border Security and Immigration.— The amended bill provides the FBI \$23,000,000 from the CJIS prior-year user fee collections to fund improvements for the IAFIS and its interoperability initiatives, to be available until expended, to support improvements to the FBI's IAFIS fingerprint system, including its interoperability with the Department of Homeland Security's (DHS) IDENT system. The FBI's fingerprint system supports immigration enforcement efforts by providing criminal history information on individuals arrested or being investigated by DHS.

Counterterrorism and Cyber Security.— The amended bill provides the FBI \$143,539,000 in emergency funds to address emerging threats in counterterrorism and cyber security for uses described in the fiscal year 2008 budget amendment.

Hollow Work Years and Fee Adjustments.—The FBI's authorized position level does not represent a realistic workforce level, as is the case with several other Department of Justice accounts. At a time when the FBI is in dire need of both National Security and Criminal positions, the Administration is proposing to eliminate 2,700 positions rather than identifying additional funding to address the problem. Therefore, the FBI is directed to eliminate 2,250 unaffordable work years and to devise a multi-year plan that identifies funding for the remaining 450 unaffordable work years. The FBI has reviewed all of its reimbursable agreements and update the cost structure of its user fees. As such, the FBI's reimbursable positions should change accordingly. An additional 292 reimbursable positions are authorized. *(unaffordable work years)*

Criminal Investigations.—The amended bill ~~includes~~ does not include funds for new agents to combat violent crime as proposed by the Senate, but the FBI is directed to make funding for new agents to combat violent crime a top priority. In recent years there has been a marked decrease in the resources devoted by the FBI to criminal investigations. Between 2001 and 2007, the FBI's traditional resources for conducting criminal investigations decreased approximately 30 percent. While most violent crime is a local crime problem, State and local authorities depend upon the FBI for investigative, forensic, and technical assistance and leadership. The FBI's task force approach to combating street crime and gang violence is one of the successful strategies that contributed to the previous decrease in violent crimes. Accordingly, the FBI is encouraged to establish additional joint task forces to target violent crimes and gang violence.

Innocent Images National Initiative.—The amended bill does not provide an increase over the budget request for the Innocent Images National Initiative as proposed by the Senate.

The FBI is urged to expand the number of agents investigating Internet-related crimes against children by increasing agents and support positions to address the critical requirements for Federal law enforcement in attacking the problem of child sexual exploitation and child victimization.

Intellectual Property Crime Enforcement.—The amended bill does not provide additional funds for the detection, investigation, and prosecution of domestic and international intellectual property crimes against the United States as proposed by the Senate. The FBI is urged to create an operational unit at FBI headquarters with agents dedicated solely to working with the Department of Justice's Computer Crime and Intellectual Property Section on complex, multi-district and international criminal intellectual property cases and to increase agents assigned to the Department of Justice's 25 Computer Hacking and Intellectual Property Units dedicated solely to criminal intellectual property cases. The additional agents for this section shall investigate and support the criminal prosecution of the Federal intellectual property laws, including title 17, United States Code, sections 506, and 1204; title 18 United States Code, sections 1831, 1832, 2318, 2319, 2319A, 2319B, and 2320. The FBI shall make similar agent increases as additional CHIP Units are created.

Annuity Protection.—The FBI is directed to identify funds to protect the pensions of FBI agents who assumed supervisory positions before the FBI began implementation of the Field Office Supervisory Term Limit Policy. The annuity protection provision should be applied retroactively, since the Term Limit Policy has already been applied to agents who would be eligible for annuity protection.

National Security Letters.—The FBI is directed to report within two months after enactment of this Act on what has been done to implement the recommendations in the March 2007 Office of Inspector General (OIG) report that identified numerous FBI abuses and misuses of National Security Letter (NSL) authority and what will be done in the future to catch mistakes and report to Congress on compliance with legal authorities.

Report on Delayed Name Checks.—Not later than 60 days after the end of each fiscal year, the Director of the FBI shall submit a report that contains, with respect to the most recently completed fiscal year--

- (1) a statistical analysis of the number of name checks processed and pending, including check requests in process at the time of the report and check requests that have been received but are not yet in process;
- (2) the average time taken to complete each type of name check;
- (3) a description of the efforts and progress made by the Director in addressing any delays in completing such name checks; and
- (4) a description of the progress that has been made in automating files used in the name check process, including investigative files of the FBI.

This report shall be submitted to the Appropriations Committees of the House and Senate, the Committee on the Judiciary of the Senate, the Committee on Homeland Security and Governmental Affairs of the Senate, the Committee on the Judiciary of the House of Representatives, and the Committee on Homeland Security of the House of Representatives.

Work Force Realignment.—Not later than 60 days after the enactment of this Act, the Director of the FBI shall submit to the Appropriations Committees of the House and Senate a report that evaluates the FBI's current work force allocation process and assesses the steps taken to right-sizing and realignment of agents, analysts and support personnel currently in field offices to better meet the FBI's mission requirements and priorities.

Training.—As the nation's primary counterterrorism agency, the FBI must ensure that its personnel are trained to understand the nature of the terrorist threat in the United States, and how to go about defeating it. Within the amounts provided, the FBI is encouraged to expand training opportunities for Counterterrorism and Counterintelligence agents, analysts and linguists, specifically to address identifiable weaknesses in understanding radical and religion-based terrorist doctrine, ideology and objectives, and in disrupting any such movements operating domestically. The FBI is to report to the Committees by February 28, 2008 on revised plans for Counterterrorism and Counterintelligence training, to include these elements.

The amended bill does not include language on the National Motor Vehicle Title Information System as proposed by the House.

CONSTRUCTION

The amended bill provides \$164,200,000 for FBI construction, instead of \$28,191,000 as proposed by the House and \$206,400,000 as proposed by the Senate. Of this amount, \$45,000,000 shall be for the Terrorist Explosives Device Analytical Center.

DRUG ENFORCEMENT ADMINISTRATION

SALARIES AND EXPENSES

The amended bill appropriates \$2,096,818,000 for the Drug Enforcement Administration (DEA), instead of \$2,081,818,000 as proposed by the House and \$2,093,406,000 as proposed by the Senate.

The amended bill provides funding above the budget request to support current operation levels and to enable DEA to lift the hiring freeze on agent and support personnel that has been in place since August 2006. This funding will allow DEA to fill 200 special agent positions as well as related support positions that would otherwise remain vacant. With the resources provided in this amended bill and in the fiscal year 2007 supplemental, the Administration's proposed reduction for "hollow FTE" is not accepted. Some FTE and positions that had been proposed for elimination will be needed to support the restored staffing levels.

Furthermore, the Administration's proposal to eliminate the Mobile Enforcement Teams (MET) program and reduce further the number of DEA agents and support staff is believed to be ill-advised, and therefore the Administration is directed to use remaining funds above the request to restore this program. This will enable DEA to retain special agents, allowing DEA to continue

continue)

assisting State and local law enforcement in their fight against methamphetamine and other dangerous drugs.

The amended bill includes \$2,000,000 in emergency funds to provide for nonpersonnel resources for a communications intercept program for Afghanistan. The initiative directly supports ongoing foreign-deployed advisory support teams (FAST) and strengthens interagency counter narcotics operations in Afghanistan.

BUREAU OF ALCOHOL, TOBACCO, FIREARMS AND EXPLOSIVES

SALARIES AND EXPENSES

The amended bill provides \$984,097,000~~000~~ for the Bureau of Alcohol, Tobacco, Firearms and Explosives (ATF), instead of \$1,013,980,000 as proposed by the House and the Senate. The amended bill includes language as proposed by the House on the availability of gun trace data.

License Revocations.—The ATF is directed to report on license revocations against firearms dealers based on violations that consist largely of recordkeeping errors.

Open Rules.—The Appropriations Committees concur with language in the House Report regarding open rulemakings and the delay in resolving the rules due to staff shortages. The ATF to report within two months after enactment of this Act on the status of all open rules and the ATF's plans to address the backlog.

Conversion of Records.—There is a need for ATF to convert Federal firearms records at the ATF National Tracing Center (NTC) to digital images. As these records are converted, search time for these records is reduced significantly. The ATF is urged to continue the conversion and integration of these records.

CONSTRUCTION

The amended bill includes \$23,500,000 for construction of the National Center for Explosives Training and Research (NCETR), instead of no funding as proposed by the House and \$35,000,000 as proposed by the Senate.

FEDERAL PRISON SYSTEM

SALARIES AND EXPENSES

The amended bill provides \$5,050,440,000 for the salaries and expenses of the Federal Prison System (FPS), instead of \$5,171,440,000 as proposed by the House and \$5,151,440,000, as proposed by the Senate.

The funds provided for the salaries and expenses of the FPS shall be distributed as follows: \$1,788,043,000 for Inmate Care and Programs; \$2,275,246,000 for Institution Security and Administration; \$806,129,000 for Contract Confinement; and \$181,022,000 for Management and Administration.

Inmate literacy, training and substance abuse treatment programs are cost-effective tools in reducing the societal costs of criminal recidivism. The FPS is directed to examine cost-effective ways to reduce the long waiting lists of inmates in need of residential and transitional drug treatment, and to expand inmate GED/literacy and occupational skills training programs.

The FPS is expected to adhere to the prison activation schedule included in the budget submission. The FPS shall notify the Appropriations Committees of any deviations to the schedule.

The FPS is commended on its work to address and prevent sexual misconduct. With funds provided in earlier appropriations Acts, the National Institute of Corrections has made useful progress in providing training and technical support to correctional systems throughout the country to eliminate staff sexual misconduct with inmates, training in investigating cases, and training the "trainers" in order that employees at every level will be more aware of, and better prepared to deal with, these cases. The FPS is directed to continue these efforts and to report to the Appropriations Committees by March 31, 2008, on progress made in this area.

BUILDINGS AND FACILITIES

The amended bill provides \$372,720,000 for the construction, modernization, maintenance, and repair of prison and detention facilities housing Federal prisoners, instead of \$95,003,000 as proposed by the House, and \$495,000,000 as proposed by the Senate.

Within funding provided, \$278,720,000 is made available for new prison construction, and \$70,000,000 is made available for modernization, maintenance and repair of existing facilities.

LIMITATION ON ADMINISTRATIVE EXPENSES, FEDERAL PRISON INDUSTRIES, INCORPORATED

The amended bill includes language placing a limitation on administrative expenses of \$2,328,000 for Federal Prison Industries, Incorporated, instead of \$2,477,000 as proposed by both the House and the Senate.

OFFICE ON VIOLENCE AGAINST WOMEN

VIOLENCE AGAINST WOMEN PREVENTION AND PROSECUTION PROGRAMS

The amended bill provides \$400,000,000 for violence against women prevention and prosecution programs, as proposed by the Senate, instead of \$459,000,000 as proposed by the House.

Violence Against Women Prevention and Prosecution Programs

(in thousands of dollars)

<i>Program</i>	<i>Amended Bill Amount</i>
STOP Grants	\$183,800
National Institute of Justice – R&D	(1,880)
Transitional Housing Assistance	(17,390)
Grants to Encourage Arrest Policies	59,220
Rural Domestic Violence Assistance Grants	40,420
Violence on College Campuses	9,400
Civil Legal Assistance	36,660
Sexual Assault Victims Services	9,400
Elder Abuse Grant Program	4,230
Safe Havens Project	13,630
Education & Training for Disabled Female Victims	6,580
CASA (Special Advocates)	13,160
Training for Judicial Personnel	2,350
Stalking Database	2,820
Court Training and Improvements	2,820
Services for Children/Youth Exposed to Violence	2,820
Advocates for Youth/Services for Youth Victims	2,820
National Tribal Sex Offender Registry	940
Research on Violence Against Indian Women	940
Closed Circuit Television Grants	940
Engaging Men and Youth in Prevention	2,820
Training Programs to Assist Probation and Parole Officers	3,290
National Resource Center on Workplace Responses	940
Total	<u>\$400,000</u>

The amended bill provides funding for several new programs authorized by the Violence Against Women and Department of Justice Reauthorization Act of 2005, including Sexual Assault Services, Court Training and Improvements, Services for Children/Youth Exposed to Violence, Advocates for Youth/Services for Youth Victims, Engaging Men and Youth in Prevention, Research on Violence against Indian Women, and the National Tribal Sex Offender Registry. In addition, the amended bill provides funding for the National Resource Center on Workplace Responses, as authorized by the Violent Crime Control and Law Enforcement Act of 1994.

Native American/Native Alaskan Liaison Office.— Native American and Native Alaskan women are faced with extraordinarily high incidences of violence. Within funds provided, the amended bill directs \$2,820,000 to the State of Alaska for the Native American/Native Alaskan Liaison Office to provide services to victims of sexual assault and domestic violence in Alaska.

OFFICE OF JUSTICE PROGRAMS

JUSTICE ASSISTANCE

The amended bill provides \$196,184,000 for Justice Assistance, instead of \$250,000,000, as proposed by the House, and \$240,000,000, as proposed by the Senate.

Justice Assistance
(in thousands of dollars)

<i>Program</i>	<i>Amended Bill Amount</i>
National Institute of Justice	\$37,000
NLECTCs	(19,740)
Bureau of Justice Statistics	34,780
Victim Notification	9,400
Economic, high-tech and cybercrime prevention	11,280
Regional Info Sharing System	40,000
Justice for All/DNA and Forensics	2,820
NIST/OLES	(705)
Missing Children Program	50,000
Management and Administration	<u>10,904</u>
Total	\$196,184

National Institute of Justice.—The Office of Inspector General is directed to audit competitive National Institute of Justice programs, projects and activities, including contracts and grants, awarded in the last three fiscal years. The audit shall examine whether grants and contracts were awarded through a fair and open competitive process. The audit shall identify costs related to any grant or contract that are administrative in nature and provide a detailed breakout of how those costs were determined.

National Crime Victimization Survey (NCVS).—Within funds provided, the Bureau of Justice Statistics is directed to appropriately fund the continuation of the NCVS, which is a critical source of information on crime victimization across the country.

Missing Children.—The amended bill provides \$50,000,000 for the Missing Children Program. The Appropriations Committees recognize the critical roles played by national, State and local law enforcement agencies and non-profit organizations in protecting children from predators. The Department is strongly urged to fully engage such entities in the implementation of new and enhanced child protection programs.

Regional Information Sharing System (RISS).—The amended bill provides \$40,000,000 for regional information sharing to ensure the efficient and effective automated exchange of crime and terrorism information among Federal, State and local agencies. The Department is urged to consider the data sharing needs of rural law enforcement.

Victim Notification.—The amended bill provides \$9,400,000 for the State Automated Victim Notification program. No funding may be used for this initiative from the Victims Assistance Program, and a 50 percent match is required from State, local or private sources.

Economic, High-tech and Cybercrime Prevention.—The amended bill includes \$11,280,000 to support and train State and local law enforcement agencies in the prevention, investigation, and prosecution of Internet, high-tech and economic crimes.

Management and Administration.—The amended bill includes language capping the total amount made available for Office of Justice Programs management and administration at \$127,915,000.

STATE AND LOCAL LAW ENFORCEMENT ASSISTANCE

The amended bill provides \$1,008,136,000 for the State and Local Law Enforcement Assistance account, instead of \$1,380,000,000, as proposed by the House, and \$1,430,000,000, as proposed by the Senate.

State and Local Law Enforcement Assistance
(in thousands of dollars)

<i>Program</i>	<i>Amended Bill Amount</i>
Byrne Memorial Justice Assistance Grants	\$170,433
National Institute of Justice	(2,000)
SLATT Intelligence State and Local Training	(2,000)

Mentally Ill Offender Act	6,500
2008 Presidential Conventions Security	100,000
Total	<u>\$1,008,136</u>

Edward Byrne Memorial Justice Assistance Grant Program (JAG).—The amended bill provides \$170,433,000 for JAG formula grants. Funding under this program is authorized for law enforcement programs; prosecution and court programs; prevention and education programs; corrections and community corrections programs; drug treatment and enforcement programs; planning, evaluation and technology improvement programs; and crime victim and witness programs other than compensation. Funding is not available for vehicles, vessels, or aircraft; luxury items; real estate; or construction projects. Within the funds provided, \$2,000,000 is made available for training to improve State and local law enforcement intelligence capabilities; and \$2,000,000 is made available for the National Institute of Justice to assist local units of government with the acquisition of new law enforcement technologies.

Byrne Discretionary Grants.—The amended bill provides \$187,513,000 for Byrne discretionary grants to help improve the functioning of the criminal justice system with an emphasis on violent crime, drugs, and serious offenders. Within the funds provided, the Office

of Justice Programs is directed to review the following projects, provide funding consistent with law and Congressional intent, and report to the Appropriations Committees regarding the disbursement of these funds:

to
to

Project	Amount
"Missing Persons" (Locating the Ones We Love), Detroit, MI	423,000

Zero to Three Court Teams Project, New Haven, CT	329,000

Byrne Competitive Grants.—The amended bill provides \$16,000,000 for Byrne competitive grants to programs of national significance to prevent crime, improve the administration of justice, or assist victims of crime. Within 60 days of enactment of this Act, the Office of Justice Programs is directed to provide a report and spend plan to the Appropriations Committees, which details the scope of the program and the criteria and methodology the agency will employ to award these grants. It is expected that national programs that have received funding under the Byrne discretionary program will be eligible for funding under this competitive grant program.

Tribal Law Enforcement Assistance.—The amended bill provides \$22,440,000 for law enforcement assistance to Indian tribes, of which \$8,630,000 is for tribal prison construction; \$8,630,000 is for tribal courts; and \$5,180,000 is for tribal alcohol and substance abuse reduction assistance. The Appropriations Committees note with deep concern the poor condition of tribal detention facilities on Navajo Nation land and across the country. The Department of Justice is directed to review the state of existing tribal detention facilities and the need for new detention capacity, and to report to the Appropriations Committees no later than 180 days after enactment of this Act on its findings, including recommendations and actions that have or will be taken to address these needs.

State Criminal Alien Assistance Program (SCAAP).—The amended bill provides \$410,000,000 for the SCAAP program for reimbursement to States and localities for costs of incarceration of criminal aliens. In light of the long delay in disbursing fiscal year 2006 SCAAP funds, the Department is directed to improve coordination with the Department of Homeland Security in the vetting, verification and reimbursement of claims.

Southwest Border Prosecutions.—The amended bill includes \$30,080,000 to provide assistance to State and local law enforcement agencies (including prosecutors, probation officers, courts and detention facilities) along the southwest border with the handling and processing of drug and alien cases referred from Federal arrests.

Northern Border Prosecutions.—The amended bill includes \$2,820,000 to provide assistance to State and local law enforcement agencies (including prosecutors, probation officers, courts and detention facilities) along the northern border with the handling and processing of drug and alien cases referred from Federal arrests.

Drug Courts.—The amended bill provides \$15,200,000 for grants to drug courts, which are designed to adjudicate substance abusing offenders and help them to break the cycle of addiction. This funding level represents a \$5,328,000 increase over fiscal year 2007.

Hal Rogers Prescription Drug Monitoring Program.—The amended bill includes \$7,050,000 for the Prescription Drug Monitoring Program to assist States in developing prescription drug monitoring systems. The Office of Justice Programs is directed to continue to work with the Drug Enforcement Administration to implement this program.

Prison Rape Prevention and Prosecution.—The amended bill includes \$17,860,000 for prison rape prevention and prosecution programs authorized by the Prison Rape Elimination Act

of 2003. Within funding provided, \$1,692,000 shall be transferred to the National Prison Rape Elimination Commission, of which \$470,000 is made available to conduct a report to the Appropriations Committees on how previously appropriated Federal funds have been spent and the impact this funding has had on reducing prison rape.

Capital Litigation.—The amended bill includes \$2,500,000 for Capital Litigation Improvement Grants, as authorized by section 426 of the Justice For All Act (Public Law 108-405).

SEARCH National Technical Assistance and Training Program.—The Appropriations Committees support efforts to assist States in the development and use of information systems to accelerate the automation of fingerprint identification processes and criminal justice data which are compatible with the FBI Integrated Automated Fingerprint Identification System.

2008 Presidential Conventions Security. —The amended bill provides \$100,000,000 in emergency funds to State and local law enforcement entities for security and related costs, including overtime, associated with the two principal 2008 Presidential Candidate Nominating Conventions, to be divided equally between the conventions.

WEED AND SEED PROGRAM FUND

The amended bill provides \$32,100,000 for the Weed and Seed Program Fund, instead of \$50,000,000, as proposed by the Senate, and \$49,692,000, as proposed by the House. The House proposed to fund this program within the Community Oriented Policing Services account.

COMMUNITY ORIENTED POLICING SERVICES

The amended bill provides \$587,233,000 for Community Oriented Policing Services (COPS) programs, instead of \$725,000,000, as proposed by the House, and \$660,000,000, as proposed by the Senate.

Community Oriented Policing Services
(in thousands of dollars)

<i>Program</i>	<i>Amended Bill Amount</i>
COPS Hiring Grants	\$20,000
Law Enforcement Technology and Interoperability	205,366
NIST/OLES	(1,000)
Violent Gang and Gun Crime Reduction	20,000
Meth Hot Spots	61,187
Bullet-Proof Vests	25,850
NIST/OLES	(1,880)
Tribal Law Enforcement	15,040
Criminal Records Upgrade	9,400
DNA Analysis Backlog Reduction/Crime Labs	152,272
Debbie Smith DNA Backlog grants	(147,391)
Post-Conviction DNA Testing grants	(4,881)
Paul Coverdell Forensic Science	18,800
Offender Re-Entry	11,750
Child Sexual Predator Elimination/Sex Offender Management	15,608
Sex Offender Management	(4,162)
National Sex Offender Registry	(850)
Training and Technical Assistance	3,760
Management and Administration	28,200
Total	<u>\$587,233</u>

COPS Hiring Grants.—The amended bill provides \$20,000,000 for grants to State and local governments for the hiring of additional law enforcement officers for deployment in community-oriented policing across the nation. Also known as “COPS on the Beat,” this grant program is being funded for the first time since 2005.

Law Enforcement Technology and Interoperability.—The amended bill provides \$205,366,000 for law enforcement technology grants to State and local law enforcement agencies. Within the amounts provided, \$1,000,000 shall be transferred to the National Institute of Standards and Technology to continue the efforts of the Office of Law Enforcement Standards in developing minimum standards for equipment purchased through this grant program. Within the funds provided, the COPS program office is directed to review the following projects, provide funding consistent with law and Congressional intent, and report to the Appropriations Committees regarding the disbursement of these funds:

to) ————— to

Project	Amount
Accomack County, VA Sheriff's Office	37,600

Violent Gang and Gun Crime Reduction.—The amended bill includes \$20,000,000 for grant assistance to State and local law enforcement agencies to combat violent crime, with special emphasis on areas plagued by violent gangs and drug-trafficking crime involving firearms.

Methamphetamine Enforcement and Clean-up.—The amended bill includes \$61,187,000 for grants to address public safety and methamphetamine manufacturing, sale, and use in “hot spots.” Within the amount provided, \$20,000,000 is included to reimburse the Drug Enforcement Administration (DEA) for assistance to State and local law enforcement for proper removal and disposal of hazardous materials at clandestine methamphetamine labs, including funds for training, technical assistance, a container program, and purchase of equipment. Within the funds provided, the COPS program office, in consultation with DEA, is directed to review the following projects, provide funding consistent with law and Congressional intent, and report to the Appropriations Committees regarding the disbursement of these funds:

Project	Amount
22nd Judicial District, Montezuma County, CO, for anti-meth operations	133,950
Alamosa Police Department, Alamosa, CO, for anti-meth equipment	22,325
Arkansas State Police, Little Rock, AR, to investigate, seize, dismantle and direct the clean-up of meth labs	535,800

DNA Analysis Backlog Reduction/Crime Labs.—The amended bill provides \$152,272,000 to improve Federal and State DNA collection and analysis systems, which are critical to the prosecution of the guilty and the protection of the innocent from wrongful prosecution. Within these amounts, \$147,391,000 is for Debbie Smith DNA backlog grants and \$4,881,000 is for Post-Conviction DNA Testing grants.

Child Sexual Predator Elimination/Sex Offender Management.—The amended bill includes \$15,608,000 for a new national initiative to provide grants to State and local governments to locate, arrest, prosecute and manage sexual predators. Within funds provided, \$4,162,000 is made available for sex offender management grants and \$850,000 is for the National Sex Offender Registry.

JUVENILE JUSTICE PROGRAMS

The amended bill includes \$383,513,000 for Juvenile Justice Programs, instead of \$399,900,000, as proposed by the House, and \$345,000,000, as proposed by the Senate.

Juvenile Justice Programs
(in thousands of dollars)

<i>Program</i>	<i>Amended Bill Amount</i>
Part A – Management and Administration	\$ 658
Part B – State Formula	74,260
Part E – Challenge Grants and Projects	93,835
Youth Mentoring Grants	70,000
Title V – Incentive Grants	61,100
Tribal Youth	(14,100)
Gang Prevention	(18,800)
Alcohol Prevention	(25,000)
Secure Our Schools Act	15,040
Victims of Child Abuse Programs	16,920
Regional Child Advocacy Centers	(3,760)
Juvenile Accountability Block Grant	51,700
Total	<u>\$383,513</u>

Youth Mentoring Grants.—National, regional and local mentoring programs play a critical role in nurturing America’s children – helping them to become good citizens who strengthen our communities. To support this vital work, the amended bill provides \$70,000,000 for a competitive program of youth mentoring grants. Within 60 days of enactment of this Act, the Office of Justice Programs is directed to provide a report and spend plan to the Appropriations Committees, which details the scope of the program and the criteria and methodology the agency will employ to award these grants. It is expected that national programs that have received funding under the Byrne discretionary program or the Juvenile Justice Part E program will be eligible for funding under this competitive grant program.

Part E – Juvenile Justice Challenge Grants and Projects.—The amended bill provides \$93,835,000 for grants under the Part E programs. Within the funds provided, the Office of Justice Programs is directed to review the following projects, provide funding consistent with law and Congressional intent, and report to the Appropriations Committees regarding the disbursement of these funds:

Zero to Three, Orleans Parish, LA, for maltreated infants and toddlers	89,300

Victims of Child Abuse Act.—The amended bill provides \$16,920,000 for several programs authorized under the Victims of Child Abuse Act (Public Law 101-647). Within funds provided, \$3,760,000 is made available for Regional Child Advocacy Centers Programs.

PUBLIC SAFETY OFFICERS BENEFITS

The amended bill includes \$74,834,000 for this account, including \$66,000,000 for death benefits, and \$8,834,000 for disability benefits and education benefits.

As stated in the House Report, the new Public Safety Officers Benefits (PSOB) regulations have been implemented poorly and there is concern about the slow progress in making benefit payments to the families of those who died protecting their community. The PSOB was established to give peace of mind to our men and women in uniform who put their lives in danger every day, and claims must be processed swiftly and efficiently to provide the intended security.

GENERAL PROVISIONS - DEPARTMENT OF JUSTICE

The amended bill includes the following general provisions for the Department of Justice:

Section 201 provides that up to \$50,000 of the funds appropriated to the Department of Justice shall be available to the Attorney General for reception and representation expenses.

Section 202 prohibits the use of funds to perform abortions in the Federal Prison System.

Section 203 prohibits the use of the funds to require any person to perform, or facilitate the performance of, an abortion.

Section 204 provides that nothing in the previous section removes the obligation of the Director of the Bureau of Prisons to provide escort services to female inmates who seek to obtain abortions outside a Federal facility.

Section 205 provides for the policy for transfers subject to the Committees' reprogramming procedures, that not to exceed 5 percent may be transferred between any appropriation, but limits to 10 percent the amount that can be transferred into any one appropriation and prohibits Federal Prison System, Building and Facilities funds to be transferred unless the President certifies.

Section 206 provides for the extension of the Personnel Management Demonstration Project for certain positions of the Bureau of Alcohol, Tobacco, Firearms and Explosives.

Section 207 provides language extending section 102(b) of Public Law 102-395 to the Bureau of Alcohol, Tobacco, Firearms and Explosives.

Section 208 provides language prohibiting funds from being used to transport prisoners classified as a maximum or high security prisoner to a facility other than a prison or other facility certified by the Federal Bureau of Prisons as appropriately secure for housing such a prisoner.

Section 209 prohibits certain prisoner amenities.

Section 210 prohibits the use of funds for Sentinel or other major new or enhanced information technology programs unless the Deputy Attorney General and the Department IT Investment Review Board certify to the Appropriations Committees that the information technology program has appropriate contractor oversight mechanisms in place, and that the program is compatible with the enterprise architecture of the Department of Justice.

Section 211 requires the availability of appropriations for obligation beyond the current fiscal year to comply with reprogramming procedures.

Section 212 authorizes changes to quarterly fees imposed in chapter 11 cases.

Section 213 provides an increase to the quarterly fee imposed in each case filed pursuant to chapter 11 of title 11, United States Code.

Section 214 prohibits the use of funds to plan for, begin, continue, finish, process, or approve a public-private competition under OMB Circular A-76 for work performed by employees of the Bureau of Prisons or of Federal Prison Industries, Incorporated.

Section 215 prohibits U.S. attorneys from simultaneously holding multiple jobs outside of the scope of a U.S. attorney's professional duties.

Section 216 withholds from obligation \$25,000,000, until the FBI reports on the results of an integrated baseline review of the Sentinel program and requires a Government Accountability Office review of FBI's baseline.

Section 217 prohibits funds for future phases of the FBI's Sentinel program until the Attorney General certifies to the Appropriations Committees that existing phases currently under contract for development or fielding have completed a majority of the work for that phase under the performance measurement baseline validated by the integrated baseline review.

Section 218 requires that the Attorney General shall submit quarterly reports to the Inspector General of the Department of Justice regarding the costs and contracting procedures relating to each conference held by the Department of Justice during fiscal year 2008 for which the cost to the Government was more than \$20,000.

Section 219 authorizes a public or private institution of higher education to offer or provide an officer or employee of any branch of the United States Government or of the District of Columbia, financial assistance for the purpose of repaying a student loan or forbearance of student loan repayment.

Section 220 includes new Native American Methamphetamine Enforcement and Treatment Act of 2007 authorities.

TITLE III

SCIENCE

OFFICE OF SCIENCE AND TECHNOLOGY POLICY

The conference agreement includes \$5,184,000, instead of \$5,515,000 as proposed by the House and \$5,715,000 as proposed by the Senate.

The Appropriations Committees reiterate language included in the Senate report directing OSTP to provide the Committees, 90 days after enactment of the Act, with a strategic budget plan in response to the National Research Council Earth Science Decadal Survey.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

The amended bill provides \$17,309,400,000 for the National Aeronautics and Space Administration (NASA) instead of \$17,622,500,000 as proposed by the House and \$17,459,600,000 as proposed by the Senate. The Senate bill included an additional \$1,000,000,000 designated as an emergency requirement. The amended bill does not include this emergency funding.

The Appropriations Committees continue to be concerned about the process of setting NASA priorities through significant funding shifts in revised operating plans rather than through the regular appropriations process. The guidance proposed in the amended bill and this explanatory statement provides a clear base funding level. The Committees must be notified of any deviations that meet the criteria established in section 505. Finally, language is included providing for the transfer of funds between appropriations accounts through the reprogramming process.

The House recommendation to provide funding for the agency in the new account structure is not included. Instead, a general provision is included, section 525, directing NASA to implement this new structure beginning in fiscal year 2009. This will allow the agency sufficient time to implement the new budget structure. The Appropriations Committees are disappointed that NASA chose not to test this new account structure in a timelier manner. The new accounts are: Science, Aeronautics, Exploration, Education, Cross-Agency Support Programs, Space Operations, and Inspector General.

The Appropriations Committees reiterate concern expressed in the House report that NASA is not able to anticipate adequately technical problems and project overruns on existing programs, and are especially concerned that new programs, such as Project Constellation, will encounter similar problems.

Additionally, the Appropriations Committees are concerned about the NASA process that leads to the selection of a course of action when such problems are encountered. Consequently,

NASA is directed to establish an ongoing relationship with the National Academy of Sciences for the purpose of providing an independent project review capability using ad hoc committees established under the purview of the Space Studies Board and/or the Aeronautics and Space Engineering Board. It is expected that these reviews will be arranged through NASA's Office of the Chief Engineer and that the reports prepared by the National Academies will be simultaneously submitted to NASA and the Committees. In the future, the Appropriations Committees do not intend to recommend approval of any major program changes unless an independent review by the National Academies concurs with NASA's proposed course of action. During a review period, NASA should not take any action that would prejudice the pursuit of any of the options under consideration. A total of \$1,000,000 is to be allocated from funding provided for Cross-Agency Support Programs to support creation of this review capability. The Committees expect a report on NASA's progress in implementing this directive by March 15, 2008.

The Appropriations Committees are concerned about standardizing the reporting of cost, schedule and content for NASA research and development projects including advanced technology and operational systems upgrades. As a result, the Government Accountability Office (GAO) is directed to prepare project status reports on selected large-scale NASA programs, projects or activities. In undertaking these reports, GAO should follow the guidance it recommended to the Congress in GAO report GAO/NSIAD 90-40.

The Appropriations Committees are concerned about NASA's use of term appointments for civil servant positions. The Committees believe this trend should be examined more closely and directs GAO to audit NASA's use of term positions. Finally, NASA is encouraged to engage in long-term agency-wide workforce planning.

A provision on enhanced-use leasing at NASA facilities is included in the General Provisions, Title V of this Act. The Appropriations Committees believe that this complicated issue requires further investigation by the respective House and Senate authorizing committees. Therefore, the language proposed by the Senate will not become effective until December 31, 2008. In the interim, NASA's current enhanced-use leasing authority will be in effect. A modification has been made to the Senate language, deleting the repeal of the reporting requirements to Congress.

SCIENCE, AERONAUTICS AND EXPLORATION

The amended bill provides \$10,543,100,000 for the Science, Aeronautics and Exploration account instead of \$10,896,200,000 in a different account structure as proposed by the House and \$10,633,000,000 as proposed by the Senate. Within this total, \$5,577,310,000 is for science activities, \$625,280,000 is for aeronautics, \$3,842,010,000 is for exploration systems and \$556,400,000 is for cross-agency support programs including education.

The amended bill reduces amounts available for corporate and general administrative expenses by \$57,900,000 in this account. These amounts are to be applied proportionally to all amounts within the Science, Aeronautics, Exploration and Cross-Agency Support Programs accounts.

Science. – Within the total amount proposed for Science, Aeronautics and Exploration, the amended bill provides \$5,577,310,000 for science activities instead of \$5,696,100,000 as proposed by the House and \$5,655,200,000 as proposed by the Senate. This level includes a general reduction of \$42,090,000. The distribution of this reduction should be outlined in NASA’s operating plan, and the reduction should not be applied to any programs, projects, or activities that are specified in this explanatory statement.

The Appropriations Committees are disappointed by the Administration’s request of a less than one percent increase for fiscal year 2008 and projected minimal increases of approximately one percent over the next several years. The Nation’s investment in research at NASA has made the U.S. the undisputed leader in the study of space and the earth’s environment. NASA’s programs in space science, Earth science, microgravity science, and astrobiology are the types of basic research investments advocated in the National Academies’ *Rising Above the Gathering Storm* report.

The Appropriations Committees recognize the importance of NASA Earth science research missions to the Nation to advance our ability to monitor climate, weather, and hazards and therefore recommends \$40,000,000 for NASA to initiate missions identified in the National Research Council (NRC) report, *Earth Science and Applications from Space: National Imperatives for the Next Decade and Beyond*. To the extent possible, the initial seven missions should begin in fiscal year 2008. The Earth science decadal survey notes that in 2005, NASA had 18 Earth observation satellites carrying 64 research sensors. Yet in 2007, the capacity is down to 14 missions on orbit, and by 2010 only a few will still be delivering data. Between now and 2010, NASA plans to deploy only five new missions carrying 22 sensors. Currently, NASA’s future plans include starting just two new missions every two years. At that rate, NASA Earth observation research missions will have decreased from 18 down to four or five in the next two decades in the 21st century. Further, the Appropriations Committees are supportive of House direction to continue the development of climate sensors. In order to better inform the Committees on its plans for missions in the 2010-2016 timeframe, NASA should include in its fiscal year 2009 budget submission its plan for meeting these unmet needs.

The amended bill includes:

- Not less than \$280,000,000 for the Hubble Space Telescope
- Not less than \$545,400,000 for the James Webb Space Telescope
- Not less than \$90,200,000 for the Global Precipitation Measurement mission
- Not less than \$626,400,000 for the Mars Exploration Program
- Not less than \$60,000,000 for the Space Interferometry Mission

The Appropriations Committees acknowledge that these sums are only floors. Should additional funding be required, the Committees will work with the agency on a reprogramming of funds.

As noted above, the Appropriations Committees support the \$90,200,000 requested for the Global Precipitation Measurement mission. This project will improve our ability to collect

Insert 107A

INSERT 107A

important data about hurricanes. This valuable information will allow us to better prepare for powerful storms and help minimize resulting damage.

The amended bill includes an increase of \$24,000,000 above the request for the research and analysis program. The program has suffered significant cuts in recent years. This program is important to maintaining the scientific vitality of the agency and also provides opportunities for young scientists and researchers to analyze data collected from current NASA missions. The research and analysis funds should be used to support both in-house and academic research. Further, there has not been an assessment of the appropriate balance between flight missions and research and analysis activities in NASA's space and Earth science programs. Therefore, NASA is directed to enter into an agreement with the National Research Council for an assessment of NASA's research and analysis activities.

A total of \$60,000,000, an increase of \$38,400,000 above the budget request, has been provided for the Space Interferometry Mission (SIM). The Appropriations Committees disagree with the Administration's budget request of refocusing the Navigator Program to fund only core interferometry and related planet-finding science and reducing SIM to a development program. It should be noted that this mission was recommended by the National Academies Decadal Astrophysics report in 1990 and 2000 [SIM, as recommended by the National Academies' Decadal Astrophysics report and should be considered a priority. With the funds proposed, NASA is to begin the development phase of the program in order to capitalize on more than \$300,000,000 already invested by the Agency. The SIM program has successfully passed all its technological milestones and is thus ready for development.

The Appropriations Committees await the upcoming results of the NASA study to determine the next outer planet destination and look forward to working with NASA to support funding for an expedient launch of this future mission. The amended bill includes \$5,000,000 to define a mission and to assess its scope and cost.

The Appropriations Committees agree with the comments in the House report commending NASA for its robotic Mars program which is one of the agency's most successful programs that has made major scientific discoveries and engaged the public. The Appropriations Committees continue to strongly support a robust Mars Exploration Program with a rate of at least one mission at every opportunity (every 26 months), which is consistent with the Administration's fiscal year 2008 request of \$625,700,000. Full funding is provided to: continue operating all present missions (Odyssey, Mars Reconnaissance Orbiter, Spirit and Opportunity); prepare Phoenix for launch in 2007, Mars Science Lab for a launch in 2009, and Scout in 2011; and to start the definition and development of Mars Science orbiter for launch in 2013, and the Astrobiology Field Lab or Mid size rovers for launch in 2016. NASA is expected to continue with the development and launch of the Mars Science Lab.

The recommendation includes an increase of \$15,000,000 above the budget request for the NASA Earth Science Applications Program. This funding increase shall only be used to support new competitively selected applications projects to be selected during fiscal year 2008. These projects will integrate the results of NASA's Earth observing systems and earth system models (using observations and predictions) into decision support tools to serve applications of national priority including, but not limited to: homeland security; coastal management; agriculture efficiency; and water management and disaster management.

The amended bill provides \$17,000,000 for the solar probe mission for continued technical risk reduction activities and related studies. NASA is expected to request a new start for this mission in fiscal year 2009.

The amended bill provides \$93,000,000 for the magnetospheric multiscale mission, \$8,500,000 above the budget request. NASA should maintain the full complement of science instruments for this mission and work aggressively to achieve the desired launch date of 2013.

NASA is directed to provide a plan on all continuity of data for the Landsat Data Continuity Mission (LDCM) to the Appropriations Committees no later than 120 days after enactment of this Act. The amended bill provides \$1,000,000 above the budget request for this mission to ensure data continuity.

A critical factor that will affect future robotic missions is the source of power for probes that cannot rely on solar energy because they are traveling too far from the Sun (where solar energy density is inadequate), or too close to it (where solar arrays would be imperiled by the Sun's proximity). Radioisotope Power Systems (RPS) are required for these spacecraft. The Appropriations Committees are aware of concerns by NASA and the Department of Energy that a supply of fuel would not be available. However, NASA has curtailed a major part of its technology development for advanced RPS devices. In order to permit effective planning for future missions, NASA should contract with the National Research Council to prepare a report no later than December 31, 2008 on these issues.

The amended bill includes \$2,000,000 above the budget request to ensure continuity of solar flare data.

While new data systems for Earth science missions should be considered, NASA is directed to continue the EOSDIS core system as the operational foundation for Earth science missions.

The Appropriations Committees concur with language in the Senate report regarding the Joint Dark Energy Mission and have provided the budget request of \$2,300,000 for this mission. The Committees appreciate the National Research Council's Beyond Einstein Program architecture report and have provided an additional \$2,000,000 to begin implementing these recommendations. NASA is directed to conduct and complete an open competition to select a Joint Dark Energy Mission for a fiscal year 2009 new start.

The Appropriations Committees reject the Administration's proposal to transfer the Near Earth Objects (NEO) program from the Science Mission Directorate to the Exploration Mission Directorate.

Further, the Appropriations Committees are concerned that NASA may reduce support for the Arecibo Observatory which is used by NASA to observe and detect NEOs. The Committees believe that this observatory continues to provide important scientific findings on issues of near-space objects, space weather, and global climate change, as well as numerous

Insert 109A

Insert 109A

other research areas. The Committees believe that these endeavors will have scientific merit far

beyond the end of the decade. NASA is directed to provide additional funding the Arecibo Observatory. 

In order to assist Congress in determining the optimal approach regarding the Arecibo Observatory, NASA shall contract with the National Research Council to study the issue and make recommendations. As part of its deliberations, the NRC shall review NASA's report *2006 Near-Earth Object Survey and Deflection Study* – and its associated *March 2007 Near-Earth Object Survey and Deflection Study* as well as any other relevant literature. An interim report, with recommendations focusing primarily on the optimal approach to the survey program, shall be submitted within 15 months of enactment of this Act. The final report, including recommendations regarding the optimal approach to developing a deflection capability, shall be submitted within 21 months of enactment of this Act. The NRC study shall include an assessment of the costs of various alternatives, including options that may blend the use of different facilities (whether ground- or space-based), or involve international cooperation. Independent cost estimating should be utilized.

Aeronautics. – Within the total amount proposed for Science, Aeronautics and Exploration, the amended bill provides \$625,280,000 for aeronautics activities instead of \$700,000,000 as proposed by the House and \$554,000,000 as proposed by the Senate. This level includes a general reduction of \$4,720,000. The distribution of this reduction should be outlined in NASA's operating plan, and the reduction should not be applied to any programs, projects, or activities that are specified in this explanatory statement.

The Administration's fiscal year 2008 request is insufficient to allow the U.S. to maintain its edge in aeronautics. These programs are critical to U.S. competitiveness, national security, quality of life, and the efficiency and safety of our future national air traffic management systems. The Appropriations Committees expect this priority to be reflected in NASA's fiscal year 2009 budget request.

The continuation of our position as a leader in aviation and aerospace is predicated on our ability to maintain international leadership and sustain growth in aeronautics. Air transportation is important throughout the world, but leadership in upgrading the air transportation system is absolutely vital to the U.S. For these reasons, the Appropriations Committees believe that a portion of the increase above the President's budget request should be applied to the research, development and technology demonstration activities of the Next Generation Air Transportation System (NextGen) to address Air Traffic Management (ATM) needs.

Additionally, the Appropriations Committees expect a portion of this increase to address the top-ranked priorities of the National Academies' Decadal Survey of Civil Aeronautics. The report presents findings and recommendations on several important technological breakthroughs ~~that the NASA aeronautics research program should focus on during the next decade.~~ Some of the technological challenges ~~that~~ need to be addressed if the United States is to realize necessary increases in capacity, safety, security and environmental compatibility of its air transportation system and enable high-speed civil travel and maintain U.S. leadership.

INSERT 110A

Finally, additional funding is proposed to carry out, with the goal of demonstrating in a relevant environment, research and development on engines and airframes that will result in significantly reduced energy consumption, emissions, and noise. NASA is directed to utilize a

portion of these funds for the development of a “green aircraft initiative.” In addition, NASA should utilize additional intramural capacity for technology readiness level activity above the current cap for these and other aeronautics initiatives, and report back to the Appropriations Committees about its efforts to increase investment in this fashion through detailed information proposed in the operating plan.

The Appropriations Committees are concerned by NASA's handling of the National Aviation Operations Monitoring Service (NAOMS) project and NASA's initial refusal to release the data. The Committees believe that a comprehensive, longitudinal survey tool and database to help identify accident precursors and aviation safety trends would be a useful addition to existing aviation safety databases. From within additional funds provided for aeronautics, NASA is directed to revalidate the NAOMS survey methodology and, if needed, to restart the NAOMS survey data collection activity as well as identify trends that may emerge. NASA should provide a report to the Congress within 90 days of enactment of this Act on its plans for completing the validation of the survey methodology and restarting the NAOMS survey data collection.

Exploration. – Within the total amount proposed for Science, Aeronautics and Exploration, the amended bill provides \$3,842,010,000 for exploration activities instead of \$3,923,800,000 as proposed by the House and \$3,972,490,000 as proposed by the Senate. This level includes a general reduction of \$28,990,000. The distribution of this reduction should be outlined in NASA's operating plan, and the reduction should not be applied to any programs, projects, or activities that are specified in this explanatory statement.

Within the amounts provided for exploration, \$950,800,000 is for the Crew Exploration Vehicle, \$1,224,800,000 is for the Crew Launch Vehicle, and \$271,500,000 is for the Lunar Precursor Robotic Program (LPRP), of which \$42,000,000 is for the lunar lander mission.

The Appropriations Committees believe that the program, management offices, and missions associated with LPRP are essential to the success of the anticipated manned missions to the Moon. Within funds provided for LPRP, \$209,500,000 shall be for the Lunar Reconnaissance Orbiter and \$20,000,000 shall be for the LPRP management office. The management office associated with LPRP shall also be directly involved in the planning and oversight of future lunar robotic missions, integrating lunar data from NASA and other international missions, oversee technology development, support the Lunar Architecture Team, and lead NASA's public outreach and education activities for understanding the lunar environment.

In 2005, NASA selected a team for the development of a lunar lander spacecraft consistent with the goals set forth in the Administration's Renewed Spirit of Discovery and the National Aeronautics and Space Administration Authorization Act of 2005 (Public Law 109-155) which called for a robust lunar robotic program, including robotic lunar landers. The National Research Council's report: *The Scientific Context for Exploration of the Moon* further supports robotic precursor missions to the Moon's surface and the valuable scientific resource such missions will provide for returning humans to the Moon. The Appropriations Committees agree that the NASA selected mission is of critical importance for the exploration vision. For this purpose, \$42,000,000 is provided for this lunar lander mission.

Insert 11A

INSERT 111A

Although NASA has claimed that a shortfall of more than \$600,000,000 (under the new full cost system) exists as a result of the funding levels provided for exploration in the fiscal year

2007 joint resolution, the NASA Administrator testified at budget hearings on the Administration's budget request that no additional funds were needed in fiscal year 2008 and in fact, there would be carryover balances for the Crew Exploration Vehicle (CEV) in this account. Although NASA's plan to bankroll funds fell short in fiscal year 2008, these funds, which are not actually needed until fiscal years 2009 and 2010, can be made up in future budget requests. NASA is pointing to this temporary reduction of funds as the reason the CEV will be delayed by approximately six months. The Appropriations Committees believe, however, that it is fully within the power of the Administration to request sufficient funds in NASA's fiscal year 2009 and fiscal year 2010 budget submissions to Congress to maintain the CEV schedule and urge NASA to do so.

Services The amended bill provides \$160,000,000 for the Commercial Orbital ~~Space~~ Transportation (COTS) program, which is intended to demonstrate private sector technologies that could potentially resupply the International Space Station in the future. However, the Appropriations Committees note that one of the two COTS contracts is currently in dispute, and are concerned by NASA's recent decision to re-compete the disputed contract before all challenges have been resolved. In doing so, NASA could potentially create a liability to fund three proposals instead of two as originally envisioned, increasing the costs of this program to the taxpayers. Therefore, NASA is directed not to select a new contractor until all challenges are decided. Further, the Government Accountability Office (GAO) is directed to perform a full review of COTS program expenditures and management.

Achieving the goals of the Exploration Initiative will require a greater understanding of life and physical sciences phenomena in microgravity as well as in the partial gravity environments of the Moon and Mars. Therefore, the Administrator is directed to enter into an arrangement with the National Research Council to conduct a "decadal survey" of life and physical sciences research in microgravity and partial gravity to establish priorities for research for the 2010-2020 decade. Further, within amounts provided, NASA is directed to increase the amount for non-exploration microgravity life and physical sciences research by \$13,500,000. These funds are for non-multi-user support and services activities.

NASA should include specific funding recommendations for the National Space Biomedical Research Institute in future budgets.

Finally, bill language is included, as proposed by the House, prohibiting funding of any research, development, or demonstration activities related exclusively to the human exploration of Mars.

Cross-Agency Support Programs. —Of the amounts provided for Science, Aeronautics and Exploration, the amended bill provides \$556,400,000 for cross-agency support programs, including education. This level includes a general reduction of \$4,200,000. The distribution of this reduction should be outlined in NASA's operating plan, and the reduction should not be applied to any programs, projects, or activities that are specified in this explanatory statement.

INSERT 112A

Within the amounts provided, \$1,000,000 is for the creation of a review capability at the National Academies and the amended bill also provides the full budget request of \$2,500,000 for the continued operations of the NASA National Technology Transfer Center. Also, within the amount provided for corporate general and administrative costs, the Appropriations Committees

recommend no less than the fiscal year 2007 level for the NASA Independent Verification and Validation Program.

Of the reductions made to corporate general and administrative, \$300,000 shall be derived from equal reductions to both the Office of Legislative and Intergovernmental Affairs, and the Office of the Chief Financial Officer.

The amended bill does not provide any new funding in fiscal year 2008 for the Centennial Challenges program. The funding proposed in previous fiscal years for this program is sufficient for NASA to run this prize-based competition. Providing additional funds to a program based on prizes only creates a sizeable amount of unused funds while other aspects of NASA's mission are being cut or delayed due to a lack of funds.

The following is a list of congressional directives. Funds for these directives shall come from Cross-Agency Support Programs, rather than from the various mission directorates.

- Adler Planetarium, Chicago, IL, for science and education programming for teachers and students 260,000
- Adler Planetarium's Space Exploration Center 940,000
- Alabama A&M University, Normal, AL, to provide a comprehensive, diverse, and flexible pool of talent at lower labor rates in the civil service environment to facilitate research and development, studies and analyses of all areas of higher temperature advanced materials research and development 564,000
- Alliance for NanoHealth, Houston, TX, to facilitate the translation of nanotechnology from the laboratory to clinical practice 846,000
- Arkansas Center for Space and Planetary Sciences in Fayetteville, AR, for research and technology 267,900
- Baylor Physical Sciences Laboratory enhancement at Baylor University 658,000
- Bio-Info-Nano Research and Development Institute at University of California, Santa Cruz 282,000
- Burlington County College Science Learning Center 1,504,000
- Center for Sustainable Life Support for Human Space Exploration 376,000

- Chesapeake Information Based Aeronautics Consortium, Maryland, for a partnership of Morgan State University, University of Maryland Eastern Shore and Bowie State University, MD, for continued aviation safety research and development 3,572,000
- Colorado State University, Fort Collins, CO, for equipment 267,900
- Connecticut State University, City of New Britain, CT, for an initiative to bring greater awareness of mechanical engineering and aerospace disciplines to disadvantaged high school students 133,950
- Development of photovoltaic capacity at Plum Brook Station 1,175,000
- Distance learning program at Fairmont State University 846,000
- Educational Advancement Alliance Math, Science, and Technology Program 1,880,000
- Expansion of the Cimmarusti/NASA Science Center Teacher Training and Science Education Outreach Program 235,000
- Flight Research Training Center, Roswell, NM, for program to detect, mitigate and recover from loss of control accidents in aircraft 1,786,000
- Grand Valley State University, Allendale, MI, for the West Michigan Science and Technology Institute's Biosciences Research and Commercialization Project 133,950
- Gulf Coast Exploreum, Mobile, AL, to stimulate increased enrollment in engineering, mathematics, and science in Alabama's universities by instructing and inspiring K-12 students in the fundamentals and application of these fields 235,000
- Human-Robot Teams at Texas A&M University 705,000
- Idaho State University, Pocatello, ID, use earth observations to investigate the effect of land management decisions 141,000
- Imiloa Astronomy Center, Hilo, HI, for operations 1,339,500
- Independent Verification and Validation research program 540,500
- Institute for NanoBio Technology, Johns Hopkins University, Baltimore, MD, for breakthrough research in nano-bio technologies 1,786,000

- Jacksonville State University, Jacksonville, AL, for a tool for educators to allow their students to reach their full potential through participation in exciting hands on projects. The projects are dynamic in scope and are structured to be less time restrictive on the classroom schedule and the educator though self-directed curriculum 235,000
- K-12 Science Education Enhancements at Middle Tennessee State University 94,000
- Large Millimeter Telescope at the University of Massachusetts, Amherst 705,000
- Loma Linda University Space Radiation Health Research Program 2,444,000
- Manned Space Flight Education Foundation, Houston, TX, to bring extensive learning opportunities to teachers, students and youth organizations throughout our Nation utilizing educational technology with Web casting, two-way videoconferencing and the Internet. The program seeks to inspire the next generation of explorers that would otherwise never have the opportunity to experience space exploration 282,000
- Marshall Space Flight Center, Huntsville, AL, to develop a cost effective nuclear power system to support the long-range objectives of NASA for missions to the moon, to Mars and to deep space 1,645,000
- Marshall Space Flight Center, Huntsville, AL, to help NASA/MSFC accomplish its current and future missions by providing critical information on composite materials as they relate to the NASA space exploration programs 1,410,000
- Marshall Space Flight Center, Huntsville, AL, to produce a common intelligent sensor module through the near-term development of the sensor technologies and integration algorithms necessary for on-orbit assembly and other AR&D missions 1,175,000
- Marshall Space Flight Center, Huntsville, AL, to provide a secure, retrievable storage solution for Marshall's Data Center that will meet all Presidential Directives 940,000

- Marshall Space Flight Center, Huntsville, AL, to provide critical, breakthrough technology to NASA for materials development, testing, and safety improvements to the Space Shuttle and Ares launch systems 1,175,000
- Marshall Space Flight Center, Huntsville, AL, to support the ongoing technology maturation program for liquid oxygen/liquid methane propulsion technology 470,000
- Marshall University, Huntington, WV, to support NASA-related composites training at the Composites Technology and Training Institute in Bridgeport, WV 2,232,500
- Maryland Department of Business and Economic Development, Baltimore, MD, for continued construction of a broadband link between the Wallops Island Flight Facility and the Patuxent River Naval Air Station 3,572,000

- McWane Science Center, Birmingham, AL, for a program will focus on increasing interest and aptitude in the science fields in K-12 students through hands-on activities that will serve as an extension of the classrooms. Teacher training will also play a major role 235,000
- Micronauts Education Simulator at Wheeling Jesuit University 282,000
- Mid-Atlantic Cooperative, Danville, VA, for installation of broadband on the Eastern Shore of Virginia 1,786,000
- Mid-Atlantic Institute for Space Technology, Pocomoke City, MD, for UAV testing and certification 223,250
- Mid-Atlantic Regional Spaceport, Wallops Island, VA, for infrastructure improvements to launch facilities 223,250
- Morehouse College Project Mars Program 188,000
- Nano/Micro Devices Laboratory at the University of Alabama-Huntsville 611,000
- NASA Exchange City Learning Lab 188,000
- NASA Johnson Space Center, Houston, TX, for computer operations and improvements 564,000

- National Center for Remote Sensing, Air, and Space Law, University, MS, to provide legal research and outreach on critical space and aviation law issues 2,820,000
- National Youth Science Foundation 258,500
- New Mexico State University, Las Cruces, NM, for the Southern New Mexico Science, Engineering, Mathematics, and Aerospace Academy for a space education program to meet the math and science learning needs of under-represented K-12 students 178,600
- Pittsburgh Engineering Initiatives, Pittsburgh, PA, to further development of regenerative treatments for astronauts 267,900
- Research on Aviation Training at Middle Tennessee State University 470,000
- Robotic Exploration Technologies in Astrobiology, Global Undersea Research Unit, University of Alaska, Fairbanks 282,000
- Robotics and Exploration Testbed at Marshall Space Center 4,089,000
- Rochester Institute of Technology, Rochester, NY, for a Integrated Sensing Systems Testbed (ISST) to develop, demonstrate, and validate advanced techniques for situational awareness 178,600
- Science, Engineering, Mathematics and Aerospace Academy at York College 188,000
- Science, Technology, Engineering, and Mathematics Center at Tennessee Tech University 752,000
- Southeast Missouri State University, Cape Girardeau, MO, Enhancement of K-12 teaching and learning of sciences, math, and technology among schools, teachers, and students 846,000
- Southern Research Institute, Birmingham, AL, for the development of laboratory-based test methods and test standards for coupon and component level characterization; development of subcomponent testing capabilities for material, component and system characterization; development and qualification of modeling and simulation techniques for these applications; and development of an integrated modeling and testing approach for evaluation and optimization of new material concepts 940,000
- Space Engineering Institute at Texas A&M University 352,500

- St. Louis University, St. Louis, MO, for immunology research that will complement NASA research on the immune system in microgravity 846,000
- Stennis Space Center, MS, to continue a longstanding technology/industry partnership in assisting in transitioning space technologies into the commercial sector 3,760,000
- Stennis Space Center, MS, to support infrastructure improvements for Crew Exploration Vehicle testing 2,820,000
- Teach for America, New York, NY to engage teachers in science, technology, engineering and mathematics 2,350,000
- Thurgood Marshall College Fund Minority NASA Science Initiative 940,000
- Tulane University, New Orleans, LA, for ongoing applied polymer technology research and development that links NASA with Louisiana's polymer industry and the State's academic polymer research programs 446,500
- U.S. Space and Rocket Center, Huntsville, AL, for completion of a long overdue update for the museum and exhibits will provide a more stimulating and effective presentation of the history of our nation's space exploration efforts and will serve to stimulate increased interest in science and technology 470,000
- University of Alabama in Huntsville, Huntsville, AL, to provide research that will provide both fundamental insight into the combustion behavior of this fuel with liquid oxygen which will assist in realizing its full performance potential and will train the next generation of propulsion scientists and engineers who will work for or support NASA in implementing the chosen engine designs 1,410,000
- University of Alabama, Tuscaloosa, AL, to conduct the fundamental and applied research needed to develop effective near-space technologies for station-keeping 470,000
- University of California Santa Cruz, Santa Cruz, CA, to continue the establishment of the Center at NASA Ames Research Center in collaboration with UC Santa Cruz 446,500
- University of Louisville, Louisville, KY, for technology that assists trauma victims without immediate access to emergency medical care, including astronauts 1,222,000

- University of Maryland, Baltimore County, MD, for environmental remote sensing 1,786,000
- University of Maryland, College Park, MD, for the Maryland Institute for Dextrous Robotics for the creation of a new generation robotic technology for space exploration 2,679,000
- University of Nebraska, Lincoln, Lincoln, NE, to help establish a degree program in space and telecommunications law 1,786,000
- University of Northern Iowa, Cedar Falls, IA, to improve the use of geospatial data by State and local governments 613,000
- University of Redlands Education Technology Program 470,000
- University of Vermont, Burlington, VT, for the UVM Center for Advanced Computing 1,700,000
- Upper Midwest Aerospace Consortium at the University of North Dakota, Grand Forks, ND, to help make data received from NASA satellite images accessible to the public for management decisions 2,679,000
- Utah State University Research Foundation, Logan, UT, To develop a modern infrared calibration capability for current and future remote sensing instruments 376,000
- Wheeling Jesuit University, Wheeling, WV, to expand the reach of the HealtheWV program, an electronic medical records system 2,679,000
- Wichita State University, Wichita, KS, to improve facilities and equipment at the National Center for Advanced Materials Performance (NCAMP), which provides shared-database methodology addressing material, structural, manufacturing, and repair qualification processes for use of affordable polymeric composite materials in commercial and military applications 329,000
- Women in Science and Engineering Scholars Program at Spelman College 188,000

Education. --The amended bill provides \$180,000,000 for education instead of \$220,300,000 as proposed by the House in its account structure and \$149,500,000 as proposed by the Senate.

The amended bill includes an additional \$3,243,000 for a total of \$15,500,000 for the Experimental Program to Stimulate Competitiveness in Research (EPSCoR) program. This will help the 27 EPSCoR jurisdictions contribute to innovation and competitiveness initiatives and other efforts as well as fund the administrative costs of the program.

The amended bill also includes an additional \$7,664,000 for a total of \$43,200,000 for the Space Grant College and Fellowship program and the associated administrative costs of the program. The amount proposed will fund 35 states or jurisdictions at \$750,000 each and 17 states or jurisdictions at \$550,000 each. The Space Grant program is a nationwide network of over 800 universities and colleges and affiliates including research and development centers and business partners. Space Grant helps introduce young people to the exciting world of space and engineering, thereby opening the door to future involvement in scientific or high technology jobs.

The amended bill also includes an additional \$9,400,000 for a competitive program as authorized by section 616 of P.L. 109-155 for science museums and planetariums to enhance programs related to space exploration, aeronautics, space science, earth science or microgravity.

The amended bill also includes an additional \$14,100,000 for a competitive education grant program. These grants shall be awarded to public schools and non-profit organizations on a competitive basis. NASA is directed, no later than 90 days after enactment of the Act, to report to the Committees the criteria it will use in reviewing and ranking grant proposals.

The amended bill also includes \$8,500,000 for a competitive program to educate students on global climate change as recommended in the National Academies' Earth Decadal survey.

Although no additional funds have been specifically provided for the NASA Graduate Students Research Program, or for a competitive program as authorized by section 431 of P.L. 109-155 for engineering scholarships, NASA is urged to consider providing additional funds.

To the extent possible, NASA is urged to use education funds to address the educational needs of women, minorities, and other historically underrepresented groups.

The Committees provide the full budget request for the Classroom of the Future.

The amended bill provides \$7,000,000 for the development of educational activities at NASA's field centers, as proposed by the Senate, and direct NASA to distribute this amount in equal \$700,000 increments to each center's official visitor(s) center for the development of educational activities in science, technology, engineering, and mathematics, including exhibits.

Below is a table of funding levels provided for the various missions and themes. Some additional items have been included for emphasis.

□ (in millions of dollars) □

Science, Aeronautics and Exploration	<u>\$10,543.1</u>

EXPLORATION CAPABILITIES

The amended bill provides \$6,733,700,000 for the Exploration Capabilities account instead of \$6,691,700,000 as proposed by the House in a similar structure entitled "Space Operations" and \$6,792,000,000 as proposed by the Senate.

Of the amount provided, \$4,000,000,000 is for space shuttle activities and \$2,220,000,000 is for space station activities.

According to NASA's budget request, the content and estimates for the space shuttle transition and retirement will be further defined in the fiscal year 2009 budget submission to Congress. The Appropriations Committees are concerned about this immense and unprecedented undertaking of transitioning assets and facilities to another NASA program, for external use, or for disposal, as well as the transitioning of the space shuttle workforce. The Committee directs the Government Accountability Office (GAO) to begin an immediate and ongoing review of NASA's plans and progress in this area and expects to receive quarterly updates beginning 30 days after enactment of this Act.

Within the amounts provided, the amended bill provides \$2,500,000 for the Deep Space Network (DSN) for initial implementation of the Space Communication Architecture Working Group's recommendations. NASA's Apollo-era infrastructure is of concern. The condition of the aging and fragile Deep Space Network (DSN) is especially disconcerting. According to GAO, this system, which has some crucial components more than 40 years old, has lost science data during routine operations and critical events. NASA began early studies of DSN upgrade options in 2000, but has yet to put forth a budget request to refurbish the existing network or provide for a new generation DSN. Although the agency states that funding will be requested as a part of the fiscal year 2009 submission to Congress, the Committees believe that it is critical to start upgrades to this system as soon as possible.

The Administrator is directed to study the possibility of delivering the Alpha Magnetic Spectrometer (AMS) to the International Space Station. Not only will this mission enable researchers to prepare NASA and our international partners for future space exploration, it has widespread support in Congress. This study shall be submitted to the Appropriations Committees within 30 days of enactment of the Act and should include the steps necessary to prepare for such a mission.

OFFICE OF INSPECTOR GENERAL

The amended bill provides \$32,600,000 for Office of Inspector General, instead of \$34,600,000 as proposed by both the House and the Senate.

RETURN TO FLIGHT

The amended bill provides no funding for Return to Flight as an emergency designation as proposed by the Senate. The House did not propose a similar provision.

ADMINISTRATIVE PROVISIONS

(INCLUDING TRANSFER OF FUNDS)

The amended bill includes provisions regarding construction of facilities at NASA, including the availability of funds.

The amended bill includes a provision regarding prizes.

The amended bill includes a provision on transfer of funds.

The amended bill includes a provision prohibiting funds to be used to implement any Reduction in Force or other involuntary separation prior to September 30, 2008.

The amended bill includes a provision regarding space shuttle transition.

The amended bill includes a provision regarding its budget justifications. The Appropriations Committees continue to be disappointed in the lack of detail provided in NASA's annual congressional budget justification document. Budget justifications are critical to the Committees' ability to make informed decisions concerning the administration's funding requests and must be submitted in a format with the greatest level of detail possible. Therefore, the amended bill includes language that stipulates the minimum acceptable details for each fiscal year budget submission. NASA shall submit to the House and Senate Appropriations Committees, no later than January 4, 2008, a template for its fiscal year 2009 budget justification document that complies with this direction.

In previous years, NASA has chosen to make major programmatic decisions through comprehensive operating plans. While such changes are allowed, it is the view of the Appropriations Committees that this should not be a regular occurrence. Instead, after an initial operating plan has been submitted, individual reprogramming letters should be utilized for minor adjustments in programs as they arise and only in exceptional circumstances should additional comprehensive measures be taken. Any reprogramming or operating plan request submitted shall contain a detailed explanation of where each adjustment of funds is proposed to be taken from, the exact destination of those funds, and the extenuating circumstances that have arisen to cause a need for the reprogramming of funds. Also, for fiscal year 2009 and each year thereafter, NASA is directed to include the out-year budget impacts in all reprogramming requests.

The amended bill includes a provision that requires NASA to provide the NASA Inspector General a quarterly report on conferences and meetings that exceed \$20,000 in total cost. The Inspector General shall analyze these reports, make recommendations if necessary, and provide a report citing each occurrence and recommendation to the House and Senate Appropriations Committees no later than September 30, 2008.

NATIONAL SCIENCE FOUNDATION

The amended bill provides a total of \$6,065,000,000 for the National Science Foundation instead of \$6,499,000,000 as proposed by the House and \$6,553,400,000 as proposed by the Senate.

RESEARCH AND RELATED ACTIVITIES

The amended bill provides \$4,821,474,000 for research and related activities at the National Science Foundation instead of \$5,139,690,000 as proposed by the House and \$5,156,090,000 as proposed by the Senate.

The amended bill includes language making up to \$57,000,000 available for the procurement of icebreaking services. The Coast Guard shall only be reimbursed for those sums agreed to in the existing memorandum of agreement.

The amended bill provides \$8,000,000 above the requested amount for EPSCoR from within amounts available in this account. The House had proposed this level above the request and the Senate proposed \$10,470,000 above the request for this account. Of the additional amount, at least \$4,000,000 is for Research Infrastructure Improvements and at least \$1,000,000 is for co-funding. As stated in the House report, the Committees are pleased that the Director has chosen to give higher visibility to the EPSCoR program by relocating it to the Office of Integrative Activities within the Office of the Director.

The Appropriations Committees strongly support increases for the math and physical sciences, computer sciences, and engineering directorates in fiscal year 2008 for research and related activities (R&RA). However, the Committees also believe the Foundation should maintain comparable growth in fiscal year 2008, to the extent possible, for the biological sciences and social, behavioral and economic sciences directorates. Each of the science disciplines is valuable in maintaining U.S. competitiveness. The Committees urge NSF to provide each directorate with funding levels that are consistent with the goals of the America COMPETES Act and look forward to the Foundation's operating plan in addressing these concerns.

Transformative research is considered to be both revolutionary and "cutting edge." While the Foundation currently conducts research that could be considered transformational, several reports including the National Science Board's (NSB) *Enhancing Support of Transformative Research at the National Science Foundation* notes that no funds are dedicated for this express purpose. The Appropriations Committees direct the Foundation to review current practices supporting the solicitation of, and the support of, transformational proposals. The Foundation shall provide a report regarding this review to the Committees on how this emerging area can be addressed, 90 days after enactment of this Act, and provide semi-annual reports with any updates thereafter. The initial report should include the Foundation's definition of transformative research.

The Appropriations Committees endorse the language in the House report expressing concern with the current status and future outlook for the academic research fleet and for other critical physical infrastructure improvements at older NSF facilities. Too often, agencies neglect routine infrastructure improvements of older facilities and programs. As described in the House language, the Foundation is directed to allocate additional resources for physical infrastructure improvements at the facilities noted, and request additional money in fiscal year 2009 to alleviate the shortfall in academic fleet funding.

The loss of buying power resulting from the decline of the dollar and other commodity-related impacts such as the recent dramatic increase in the cost of oil and steel is of concern to the Committees. Taken together these two factors seriously affect many of the international programs operated by the NSF. These include the Arctic and Antarctic programs, earth, ocean, and atmospheric programs, and both radio and optical telescope facilities operated at various locations worldwide. The NSF should provide a report to the Committees within 90 days after

the enactment of this Act on current actions and future plans, including an analysis of establishment of a currency and commodity internal reserve fund, to address this issue.

The Appropriations Committees express concern over the conclusions of the NSF's Division of Astronomical Sciences Senior Review with regard to the Arecibo Observatory. The Committees believe that this Observatory continues to provide important scientific findings on issues of near-space objects, space weather, and global climate change, as well as numerous other research areas. The Committees believe that these endeavors will have scientific merit far beyond the end of this decade. As such, the Committees hope the Division of Astronomical Sciences will reconsider its conclusions regarding future funding for the Arecibo Observatory. In addition, the Appropriations Committees direct the Foundation to provide the budget request for operations at its astronomical facilities.

The Appropriations Committees believe that while both the Science and Technology Policy Institute (STPI) and RaDiUS serve a useful purpose, the funds provided within the budget for NSF have been solely provided for use by the Office of Science and Technology Policy (OSTP). Bill language has been included that provides funds via transfer to OSTP for costs associated with the use of STPI and RaDiUS. The Committees note that because it is OSTP that primarily utilizes STPI and RaDiUS for its activities, OSTP should request funds in its own budget rather than having funds earmarked within NSF. NSF is directed to charge OSTP the same overhead rates as is done for any activities initiated by other federal agencies. NSF shall notify the House and Senate Appropriations Committees prior to initiating any activities on behalf of OSTP. Further, in future years, OSTP is expected to request funds for the use of STPI and RaDIUS as part of its budget request.

Finally, the National Science Foundation is directed to await the report on service science and its merits by the National Academies, as required in P.L. 110-69, before it evaluates the applicability of such research to the mission of NSF.

MAJOR RESEARCH EQUIPMENT AND FACILITIES CONSTRUCTION

The amended bill provides \$220,740,000 for the Major Research Equipment and Facilities Construction account, ~~the same~~ as proposed by the House and by the Senate.

instead of
244,740,000

EDUCATION AND HUMAN RESOURCES

The amended bill provides \$725,600,000 for the Education and Human Resources account, instead of \$822,600,000 as proposed by the House and \$850,000,000 as proposed by the Senate.

NSF not only includes research, but also shares in the responsibility for promoting quality math and science education as intertwining objectives at all levels of education across the United States. Math and science educators play a major role in keeping the U.S. competitive in the 21st century. Increasing the number of highly qualified K-12 math and science teachers is critical to the creation of a new generation of innovators. Recommendations included in the National Academies' *Rising Above the Gathering Storm* report discussed the importance of expanding programs to enhance the undergraduate education of the future science and engineering workforce. Within the amounts provided, an additional \$5,000,000, for a total of \$15,000,000,

shall be provided for the Robert Noyce Scholarship program. The House had proposed \$36,000,000 above the budget request and the Senate had proposed \$15,000,000 above the budget request for this activity. The Robert Noyce Scholarship program encourages talented Science, Technology, Engineering, and Mathematics (STEM) undergraduate students and postgraduate professionals to become K-12 mathematics and science teachers.

The Math and Science Partnership program remains a high priority of the Committees. The Math and Science Partnership program provides for the collaboration between pre-college and college to promote excellence in teaching and learning.

The Committees reiterate the direction provided in the House report that the Foundation provide the Committees with a detailed breakdown of funding disbursements for fiscal year 2006 and urge NSF to work within its peer-review process for these programs to incorporate rural communities, universities, and school districts.

The Committees are strongly supportive of the following programs and urge the Foundation to provide funding at the requested level for these programs: the Undergraduate/Graduate Student Support account and the Graduate Teaching Fellowships in K-12, the NSF Academies for Young Scientists, Historically Black Colleges and Universities (HBCUs), the HBCU Undergraduate Program, the Louis Stokes Alliance for Minority Participation (LSAMP), the Tribal Colleges and Universities Program (TCUP) and the STEM Talent Expansion program.

Further, the Committees support the Foundation's request for the Advanced Technological Education (ATE) and the Centers of Research Excellence in Science and Technology (CREST). The conferees urge the Foundation to broaden Hispanic participation and expect that NSF will begin to address this issue in its operating plan.

Finally, the amended bill does not provide funds for Earth observation education and training as proposed by the House.

AGENCY OPERATIONS AND AWARD MANAGEMENT

The amended bill provides \$281,790,000 for the Agency Operations and Award Management account as proposed by the Senate, instead of \$275,590,000 as proposed by the House and \$285,590,000.

OFFICE OF THE NATIONAL SCIENCE BOARD

The amended bill provides \$3,969,000 for the National Science Board, instead of \$4,030,000 as proposed by both the House and the Senate.

OFFICE OF INSPECTOR GENERAL

The amended bill provides \$11,427,000 for Office of Inspector General, instead of \$12,350,000 as proposed by both the House and the Senate.

~~The amended bill provides \$12,350,000 for the Office of the Inspector General as proposed by both the House and the Senate.~~

TITLE IV

RELATED AGENCIES

COMMISSION ON CIVIL RIGHTS

SALARIES AND EXPENSES

The amended bill provides \$8,460,000 for the salaries and expenses of the Commission on Civil Rights, instead of \$9,000,000 as proposed by both the House and the Senate.

The Appropriations Committees have serious reservations about the Commission's current capacity and commitment to fulfilling its civil rights mission in a fair and effective manner. The Commission continues to grapple with leadership accountability issues, including management and operational deficiencies. It is expected that the Commission will more effectively support its regional and grassroots network, including the State Advisory Committees. It is further expected that the Commission will establish fair and transparent policies and procedures to ensure the objectivity of written Commission reports.

EQUAL EMPLOYMENT OPPORTUNITY COMMISSION

SALARIES AND EXPENSES

The amended bill includes \$329,300,000 instead of \$332,748,000 as proposed by the House and \$378,000,000 as proposed by the Senate.

The Equal Employment Opportunity Commission (EEOC) is directed to provide a spend plan within 60 days after enactment on the investments the Commission intends to make to reduce the backlog and to handle call intake during transition after the closing of the National Contact Center. Funds have been provided above the request to upgrade telephone technology in the Commission's offices and hire staff in its field offices to address calls from the public. The Commission is commended for beginning the termination of the National Contact Center and transfer of its functions back into district offices. However, this transition is taking longer than necessary. The Commission had indicated that the transition would be completed by the end of 2007. Therefore, if any funds are used for operation of the National Contact Center beyond February 1, 2008, the Appropriations Committees expect to be notified and consulted.

The Inspector General is directed to submit, within 90 days of enactment of this Act, an evaluation of the impact the EEOC's repositioning plan has had on the delivery of core services. The report should include an evaluation of cost savings attributable to the repositioning, and the impact that the repositioning has had on the EEOC's capacity to deter, detect, and litigate violations of the Nation's civil rights laws.

INTERNATIONAL TRADE COMMISSION

OPERATIONS AND ADMINISTRATION

The amended bill includes \$68,400,000 as proposed by the House and Senate for the International Trade Commission (ITC).

LEGAL SERVICES CORPORATION

PAYMENT TO THE LEGAL SERVICES CORPORATION

The amended bill includes \$350,490,000 for payment to the Legal Services Corporation (LSC), instead of \$377,000,000 as proposed by the House, and \$390,000,000 as proposed by the Senate. Within the funds provided, \$332,390,000 is for basic field programs, to be used for competitively awarded grants and contracts; \$3,000,000 is for the Inspector General; \$12,500,000 is for management and administration; \$2,100,000 is for client self-help and information technology; and \$500,000 is for loan repayment assistance.

Current LSC locality pay represents reasonable compensation for LSC officers and employees, and language is included to authorize the continuation of locality pay.

ADMINISTRATIVE PROVISION – LEGAL SERVICES CORPORATION

The amended bill includes bill language to continue the terms and conditions included under this section in previous appropriations Acts.

MARINE MAMMAL COMMISSION

SALARIES AND EXPENSES

The amended bill includes \$2,820,000 for the Marine Mammal Commission instead of \$3,000,000 as proposed by both the House and the Senate.

NATIONAL VETERANS BUSINESS DEVELOPMENT CORPORATION

SALARIES AND EXPENSES

The amended bill includes \$1,410,000 for the National Veterans Business Development Corporation (TVC) instead of \$2,500,000 as proposed by the House, and no funding as proposed by the Senate.

The amended bill includes report language directing TVC to submit a spend plan to both the House and Senate Committees on Appropriations outlining the allocation of funding provided; the plan should describe the level of funding proposed to be used for overhead costs, salary, benefits, and the distribution of funds among the Corporation's existing places of operations.

OFFICE OF THE UNITED STATES TRADE REPRESENTATIVE

SALARIES AND EXPENSES

The amended bill includes \$44,120,000 for the Office of the United States Trade Representative instead of \$48,407,000 as proposed by the House and \$47,800,000 as proposed by the Senate. The Committees support the USTR's pursuit of an active trade agenda and an increased focus on intellectual property protection in China, including full staffing of the new office in Beijing, and the filling of attorney vacancies.

The amended bill includes language in the House report regarding CAFTA and directs USTR to submit a report. The amended bill includes language in the Senate report regarding WTO Appellate Body ruling regarding the Continued Dumping and Subsidy Offset Act (P.L. 106-307). The amended bill includes report language as proposed by the Senate, regarding negotiations within the WTO.

The amended bill includes report language in the House report directing the USTR to provide a report to the Appropriations Committees on Russia's progress in complying with intellectual property commitments and a report on the WTO negotiations concerning textiles and apparel.

STATE JUSTICE INSTITUTE

SALARIES AND EXPENSES

The amended bill provides \$3,760,000 for the salaries and expenses of the State Justice Institute, instead of \$4,640,000 as proposed by the House, and \$3,500,000 as proposed by the Senate. Of the amount appropriated, \$470,000 may be used for strategic initiatives that will have national implications for the courts.

TITLE V

GENERAL PROVISIONS

The amended bill includes the following General Provisions:

Section 501- The amended bill includes section 501 regarding the use of appropriations for publicity and propaganda purposes.

Section 502- The amended bill includes section 502 regarding the availability of appropriations for obligation beyond the current fiscal year.

Section 503- The amended bill includes section 503 regarding the use of funds for consulting purposes.

Section 504- The amended bill includes section 504 providing that should any provision of the Act be held to be invalid, the remainder of the Act would not be affected.

Section 505- The amended bill includes section 505 regarding the policy by which funding available to the agencies funded under this Act may be reprogrammed for other purposes.

Section 506- The amended bill includes section 506 prohibiting construction, repair, overhaul, conversion, or modernization of National Oceanic and Atmospheric Administration ships outside of the United States.

Section 507- The amended bill includes section 507 prohibiting funds in the bill from being used to implement, administer, or enforce any guidelines of the Equal Employment Opportunity Commission (EEOC) similar to proposed guidelines covering harassment based on religion published by the EEOC in October 1993.

Section 508- The amended bill includes section 508 regarding the purchase of American made products.

Section 509- The amended bill includes section 509 that requires agencies to provide quarterly reports to the Appropriations Committees regarding unobligated balances.

Section 510- The amended bill includes section 510 requiring agencies and departments funded in this Act to absorb any necessary costs related to downsizing or consolidation within the amounts provided to the agency or department.

Section 511- The amended bill includes section 511 regarding the sale or export of tobacco or tobacco products.

Section 512- The amended bill includes section 512 that prohibits a user fee from being charged for background checks conducted pursuant to the Brady Handgun Control Act of 1993, and

prohibits implementation of a background check system which does not require or result in destruction of certain information.

Section 513- The amended bill includes section 513 regarding amounts available under the Crime Victims Fund.

Section 514- The amended bill includes section 514 prohibiting the use of Department of Justice funds for programs that discriminate against, denigrate, or otherwise undermine the religious beliefs of students participating in such programs.

Section 515- The amended bill includes section 515 regarding transfers of funds.

Section 516- The amended bill includes section 516 regarding the negotiation or reevaluation of international agreements.

Section 517- The amended bill includes section 517 regarding E-government initiatives.

Section 518- The amended bill includes section 518 regarding firearms tracing studies.

Section 519- The amended bill includes section 519 requiring the Inspectors General of the Departments of Commerce and Justice, the National Aeronautics and Space Administration, and the National Science Foundation to conduct reviews of activities funded in this Act; prohibits the use of funds for certain banquets and conferences; and requires certifications regarding conflicts of interest.

Section 520- The amended bill includes section 520 regarding patents.

Section 521- The amended bill includes section 521 that prohibits the use of funds to support or justify the use of torture.

Section 522- The amended bill includes section 522 regarding the export of firearms.

Section 523- The amended bill includes section 523 regarding the use of funds to process permits to import certain products.

Section 524- The amended bill includes section 524 prohibiting funds to include certain language in new trade agreements.

Section 525- The amended bill includes section 525 directing NASA to modify its financial management system.

Section 526- The amended bill includes section 526 prohibiting funds to authorize a national security letter in contravention of the statutes authorizing the FBI to issue national security letters.

Section 527- The amended bill includes section 527 prohibiting funds for a public-private competition conducted under Office of Management and Budget Circular A-76 unless certain appeal rights are included.

Section 528- The amended bill includes section 528 amending Section 605 of the Harmful Algal Bloom and Hypoxia Research and Control Act of 1998, providing new authorized funding levels for 2008 through 2010.

Section 529- The amended bill includes section 529 correcting two enrollment errors in P.L. 109-479 which amended the Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1853a).

Section 530- The amended bill includes section 530 requiring notification to the Committees in the event of cost overruns.

Section 531- The amended bill includes section 531 limiting reprogrammings and transfers after June 30 to extraordinary circumstances.

Section 532- The amended bill includes section 532 authorizing funds appropriated for intelligence activities for the Department of Justice during fiscal year 2008 until the enactment of the Intelligence Authorization Act for Fiscal Year 2008.

Section 533- The amended bill includes section 533 modifying NASA's enhanced use lease authority.

Section 534- The amended bill includes section 534 directing that the Departments, agencies, and commissions funded under this Act, shall establish and maintain on the homepages of their Internet websites a link to their Offices of Inspectors General and a method by which individuals may anonymously report cases of waste, fraud, or abuse.

Section 535- The amended bill includes section 535 prohibiting funds to enter into a contract in an amount greater than \$5,000,000 or to award a grant in excess of such amount unless the prospective contractor or grantee has filed certain Federal tax returns.

Section 536- The amended bill includes section 536 authorizing the Digital and Wireless Networks for Higher Education Pilot Program – the 'ED 1.0 Act'.

Section 537- The amended bill includes section 537 prohibiting the use of funds in a manner that is inconsistent with the principal negotiating objective of the United States with respect to trade remedy laws.

Section 538- The amended bill includes section 538 prohibiting the use of funds to purchase first class or premium airline travel in contravention of current regulations.

Section 539- The amended bill includes section 539 to a citation related to "the '911 Modernization Act'".

Section 540- The amended bill includes section 540 related to services of the Legal Services Corporation.

Section 541- The amended bill includes section 541 prohibiting the use of funds in contravention of the Federal government's participation in the basic pilot program.

Section 542- The amended bill includes section 542 prohibiting the use of funds to employ aliens who are unauthorized to work.

Section 543- The amended bill includes section 543 prohibiting the use of funds to send or otherwise pay for the attendance of more than 50 employees from a Federal department or agency at any single conference occurring outside the United States.

TITLE VI
RESCISSIONS

DEPARTMENT OF COMMERCE

ALL CAPS

ECONOMIC DEVELOPMENT ADMINISTRATION

ECONOMIC DEVELOPMENT ASSISTANCE PROGRAMS

(RESCISSION)

The amended bill includes a rescission of \$5,700,000 from unobligated balances available in this account from prior year appropriations.

ECONOMIC AND STATISTICAL ANALYSIS

SALARIES AND EXPENSES

(RESCISSION)

The amended bill includes a rescission of \$800,000 from unobligated balances available in this account from prior year appropriations.

NATIONAL INSTITUTE OF STANDARDS AND TECHNOLOGY

INDUSTRIAL TECHNOLOGY SERVICES

(RESCISSION)

The amended bill includes a rescission of \$18,800,000 from unobligated balances available in this account from prior year appropriations, instead of \$10,000,000 as proposed by the Senate.

NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION

(RESCISSION)

The amended bill includes a rescission of \$11,372,000 from unobligated balances available in this account from prior year appropriations.

DEPARTMENT OF JUSTICE
GENERAL ADMINISTRATION
SALARIES AND EXPENSES
(RESCISSION)

ALL CAPS

The amended bill includes a rescission of \$7,400,000 from unobligated balances available in this account.

JUSTICE INFORMATION SHARING TECHNOLOGY
(RESCISSION)

The amended bill includes a rescission of \$5,000,000 from unobligated balances available in this account.

WORKING CAPITAL FUND
(RESCISSION)

The amended bill includes a rescission of \$41,000,000 from unobligated balances in this account as proposed by the House and the Senate.

TELECOMMUNICATIONS CARRIER COMPLIANCE FUND
(RESCISSION)

The amended bill includes a rescission of \$1,300,000 from unobligated balances in this account.

DETENTION TRUSTEE
(RESCISSION)

The amended bill includes a rescission of \$145,000,000 from unobligated balances in this account, instead of \$135,000,000 as proposed by the House and the Senate.

LEGAL ACTIVITIES

ASSETS FORFEITURE FUND

(RESCISSION)

The amended bill includes a rescission of \$240,000,000 from unobligated balances in this account as proposed by the House and the Senate.

OFFICE OF VIOLENCE AGAINST WOMEN

VIOLENCE AGAINST WOMEN PREVENTION AND PROSECUTION PROGRAMS

(RESCISSION)

The amended bill includes a rescission of \$14,700,000 from unobligated balances available in this account from prior year appropriations.

OFFICE OF JUSTICE PROGRAMS

(RESCISSION)

The amended bill includes a rescission of \$87,500,000 from unobligated balances available in this account from prior year appropriations as proposed by the House and the Senate. Rescinded funds should be derived from deobligations and recoveries from completed grant activities.

COMMUNITY ORIENTED POLICING SERVICES

(RESCISSION)

The amended bill includes a rescission of \$87,500,000 from unobligated balances available in this account from prior year appropriations as proposed by the House instead of \$37,500,000 as proposed by the Senate.

The amended bill includes a rescission of \$10,278,000 from unobligated balances appropriated from the Violent Crime Reduction Trust Fund as proposed by the House.

Rescinded funds should be derived from deobligations and recoveries from completed grant activities.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

(RESCISSION)

The amended bill includes a rescission of \$192,475,000 from unobligated balances available in this account from prior year appropriations, instead of \$69,832,000 as proposed by the House. The amended bill includes language requesting that within 30 days after the date of the enactment of this section the Administrator shall submit to the Appropriations Committees of the House and Senate a report specifying the amount of each rescission made pursuant to this section.

NATIONAL SCIENCE FOUNDATION

(RESCISSION)

The amended bill includes a rescission of \$33,000,000 from unobligated balances available in this account from prior year appropriations, instead of \$24,000,000 as proposed by the House. The amended bill includes language requesting that within 30 days after the date of the enactment of this section the Director shall submit to the Appropriations Committees of the House and Senate a report specifying the amount of each rescission made pursuant to this section.

Disclosure of Earmarks and Congressional Directed Spending Items

Following is a list of congressional earmarks and congressionally directed spending items (as defined in clause 9 of rule XXI of the Rules of the House of Representatives and rule XLIV of the Standing Rules of the Senate, respectively) included in the House amendment or this explanatory statement, along with the name of each Senator, House Member, Delegate, or Resident Commissioner who submitted a request to the Committee of jurisdiction for each item so identified. There are no items in this division which did not appear in the House or Senate versions of H.R. 3093 or the accompanying committee reports. Neither the House amendment nor the explanatory statement contains any limited tax benefits or limited tariff benefits as defined in the applicable House and Senate rules.

DOJ-Juv Justice	Urban League of Greater Columbus, GA Youth Advocacy Program	\$70,500	Bishop (Sanford)
DOJ-Juv Justice	Vermont Department of Children and Families, Waterbury, VT, for programs to help at-risk youth	\$714,400	Sanders
DOJ-Juv Justice	Vermont Department of Public Safety, Waterbury, VT, for an outreach program for at-risk youth	\$133,950	Sanders
DOJ-Juv Justice	Visiting Nurse Association, Omaha, NE, for an intervention program for vulnerable women, infants and children	\$223,250	Nelson (Ben)
DOJ-Juv Justice	Waukon, IA, High School Youth Intervention Project	\$79,900	Latham
DOJ-Juv Justice	Wayne County Department of Public Services, Detroit, MI, for a truancy intervention program	\$347,800	Levin (Carl), Stabenow, Conyers
DOJ-Juv Justice	Wayne County, MI Juvenile Reentry Initiative	\$188,000	Conyers, Kilpatrick, Levin (Carl), Stabenow
DOJ-Juv Justice	Westchester Jewish Community Services, NY	\$282,000	Engel
DOJ-Juv Justice	Western PA CARES, Pittsburgh, PA	\$188,000	Doyle
DOJ-Juv Justice	Winona State University, Winona, MN, to teach investigators and prosecutors the science of interviewing children victimized by abuse	\$446,500	Coleman, Klobuchar, Walz, Oberstar
DOJ-Juv Justice	Wittenberg University	\$343,100	Hobson
DOJ-Juv Justice	Women's Sports Foundation, Chicago, IL, for the GoGirlGo! Chicago Initiative, a mentoring, education and development program	\$526,900	Durbin, Obama
DOJ-Juv Justice	Women's Treatment Center, Chicago, IL, for preservation services for incarcerated mothers and their children	\$230,000	Durbin
DOJ-Juv Justice	World Impact St. Louis, MO, Youth Program	\$282,000	Clay

DOJ-Juv Justice	World Impact Youth Gang Prevention, Los Angeles, CA	\$70,500	Becerra
DOJ-Juv Justice	World Vision Appalachia at-risk youth programming, Moatsville, WV	\$141,000	Mollohan
DOJ-Juv Justice	YMCA Honolulu, Honolulu, HI, to provide crime prevention and outreach services to the rural youth of Hawaii	\$357,200	Inouye
DOJ-Juv Justice	YMCA of Greater Houston Juvenile Justice Outreach Program, TX	\$446,500	Green (Gene)
DOJ-Juv Justice	YMCA of Metropolitan Fort Worth, TX	\$282,000	Granger
DOJ-Juv Justice	YMCA of Middle Tennessee, Healthy Communities-Healthy Youth	\$211,500	Cooper
DOJ-Juv Justice	York County, PA, Children's Advocacy Center	\$112,800	Platts
DOJ-Juv Justice	Youth Aid Panel/Linkages, Beaver Springs, PA	\$399,500	Carney
DOJ-Juv Justice	Youth Alternative to Violence and Crime Project, Oakland, CA	\$47,000	Lee
DOJ-Juv Justice	Youth Crime Watch, Miami, FL	\$517,000	Boyd
DOJ-Juv Justice	Youth Gang Violence Prevention Initiative, School District of Palm Beach County, FL	\$564,000	Wexler, Mahoney
DOJ-Juv Justice	Youth Mentoring Program, Burbank, CA	\$70,500	Schiff
DOJ-Juv Justice	Youth Ministries for Peace and Justice Programs for At-Risk Youth, Bronx, NY	\$141,000	Serrano
DOJ-Juv Justice	Youth Services System, Inc. at-risk youth program, Wheeling, WV	\$94,000	Mollohan
DOJ-Juv Justice	YouthWorks, Inc., Pittsburgh, PA	\$47,000	Doyle
DOJ-Juv Justice	YWCA Children's Services, Seattle-King-Snohomish County, WA	\$282,000	Inslee
DOJ-Juv Justice	Zero to Three Court Team for Maltreated Infants and Toddlers Project, San Francisco, CA	\$314,900	Pelosi
DOJ-Juv Justice	Zero to Three, for 5th Judicial District, Des Moines, IA, for maltreated infants and toddlers	\$194,000	Harkin, Grassley
DOJ-Juv Justice	Zero to Three, Omaha, NE, for maltreated infants and toddlers	\$89,300	Nelson (Ben)

COMMERCE, JUSTICE, SCIENCE—Continued

Account	Project	Amount	Member(s)
DOJ-Juv Justice	Zero to Three, Orleans Parish, LA, for maltreated infants and toddlers	\$89,300	Landrieu
DOJ-VAWA	Native American/Native Alaskan Liaison Office	\$2,820,000	Stevens
NASA	Adler Planetarium, Chicago, IL, for science and education programming for teachers and students	\$260,000	Durbin, Kirk, Jackson Jr.
NASA	Adler Planetarium's Space Exploration Center	\$940,000	Kirk, Jackson Jr., Durbin
NASA	Alabama A&M University, Normal, AL, to provide a comprehensive, diverse, and flexible pool of talent at lower labor rates in the civil service environment to facilitate research and development, studies and analyses of all areas of higher temperature advanced materials research and development	\$564,000	Shelby, Cramer
NASA	Alliance for NanoHealth, Houston, TX, to facilitate the translation of nanotechnology from the laboratory to clinical practice	\$846,000	Hutchison
NASA	Arkansas Center for Space and Planetary Sciences in Fayetteville, AR, for research and technology	\$267,900	Lincoln, Pryor, Boozman
NASA	Baylor Physical Sciences Laboratory enhancement at Baylor University	\$658,000	Edwards
NASA	Bio-Info-Nano Research and Development Institute at University of California, Santa Cruz	\$282,000	Honda, Eshoo, Feinstein
NASA	Burlington County College Science Learning Center	\$1,504,000	Saxton
NASA	Center for Sustainable Life Support for Human Space Exploration	\$376,000	Price (David), Dole
NASA	Chesapeake Information Based Aeronautics Consortium, Maryland, for a partnership of Morgan State University, University of Maryland Eastern Shore and Bowie State University, MD, for continued aviation safety research and development	\$3,572,000	Mikulski, Cardin, Cummings, Ruppersberger
NASA	Colorado State University, Fort Collins, CO, for equipment	\$267,900	Allard, Salazar (Ken)

NASA	Connecticut State University, City of New Britain, CT, for an initiative to bring greater awareness of mechanical engineering and aerospace disciplines to disadvantaged high school students	\$133,950	Dodd, Lieberman, Larson, Murphy (Christopher)
NASA	Development of photovoltaic capacity at Plum Brook Station	\$1,175,000	Kaptur
NASA	Distance learning program at Fairmont State University	\$846,000	Mollohan
NASA	Educational Advancement Alliance Math, Science, and Technology Program	\$1,880,000	Fattah
NASA	Expansion of the Cimmarusti/NASA Science Center Teacher Training and Science Education Outreach Program	\$235,000	Schiff
NASA	Flight Research Training Center, Roswell, NM, for program to detect, mitigate and recover from loss of control accidents in aircraft	\$1,786,000	Domenici, Bingaman
NASA	Grand Valley State University, Allendale, MI, for the West Michigan Science and Technology Institute's Biosciences Research and Commercialization Project	\$133,950	Levin (Carl), Stabenow
NASA	Gulf Coast Exploreum, Mobile, AL, to stimulate increased enrollment in engineering, mathematics, and science in Alabama's universities by instructing and inspiring K-12 students in the fundamentals and application of these fields	\$235,000	Shelby
NASA	Human-Robot Teams at Texas A&M University	\$705,000	Edwards
NASA	Idaho State University, Pocatello, ID, use earth observations to investigate the effect of land management decisions	\$141,000	Craig, Crapo, Simpson (Mike)
NASA	Imiloa Astronomy Center, Hilo, HI, for operations	\$1,339,500	Inouye, Hirono
NASA	Independent Verification and Validation research program	\$540,500	Mollohan
NASA	Institute for NanoBio Technology, Johns Hopkins University, Baltimore, MD, for breakthrough research in nano-bio technologies	\$1,786,000	Mikulski

COMMERCE, JUSTICE, SCIENCE—Continued

Account	Project	Amount	Member(s)
NASA	Jacksonville State University, Jacksonville, AL, for a tool for educators to allow their students to reach their full potential through participation in exciting hands on projects. The projects are dynamic in scope and are structured to be less time restrictive on the classroom schedule and the educator though self-directed curriculum	\$235,000	Shelby
NASA	K-12 Science Education Enhancements at Middle Tennessee State University	\$94,000	Gordon
NASA	Large Millimeter Telescope at the University of Massachusetts, Amherst	\$705,000	Olver
NASA	Loma Linda University Space Radiation Health Research Program	\$2,444,000	Lewis (Jerry)
NASA	Manned Space Flight Education Foundation, Houston, TX, to bring extensive learning opportunities to teachers, students and youth organizations throughout our Nation utilizing educational technology with Web casting, two-way videoconferencing and the Internet. The program seeks to inspire the next generation of explorers that would otherwise never have the opportunity to experience space exploration	\$282,000	Hutchison
NASA	Marshall Space Flight Center, Huntsville, AL, to develop a cost effective nuclear power system to support the long-range objectives of NASA for missions to the moon, to Mars and to deep space	\$1,645,000	Shelby
NASA	Marshall Space Flight Center, Huntsville, AL, to help NASA/MSFC accomplish its current and future missions by providing critical information on composite materials as they relate to the NASA space exploration programs	\$1,410,000	Shelby
NASA	Marshall Space Flight Center, Huntsville, AL, to produce a common intelligent sensor module through the near-term development of the sensor technologies and integration algorithms necessary for on-orbit assembly and other AR&D missions	\$1,175,000	Shelby
NASA	Marshall Space Flight Center, Huntsville, AL, to provide a secure, retrievable storage solution for Marshall's Data Center that will meet all Presidential Directives	\$940,000	Shelby

NASA	Marshall Space Flight Center, Huntsville, AL, to provide critical, breakthrough technology to NASA for materials development, testing, and safety improvements to the Space Shuttle and Ares launch systems	\$1,175,000	Shelby, Cramer
NASA	Marshall Space Flight Center, Huntsville, AL, to support the ongoing technology maturation program for liquid oxygen/liquid methane propulsion technology	\$470,000	Shelby
NASA	Marshall University, Huntington, WV, to support NASA-related composites training at the Composites Technology and Training Institute in Bridgeport, WV	\$2,232,500	Byrd
NASA	Maryland Department of Business and Economic Development, Baltimore, MD, for continued construction of a broadband link between the Wallops Island Flight Facility and the Patuxent River Naval Air Station	\$3,572,000	Mikulski, Cardin
NASA	McWane Science Center, Birmingham, AL, for a program will focus on increasing interest and aptitude in the science fields in K-12 students through hands-on activities that will serve as an extension of the classrooms. Teacher training will also play a major role	\$235,000	Shelby
NASA	Micronauts Education Simulator at Wheeling Jesuit University	\$282,000	Mollohan
NASA	Mid-Atlantic Cooperative, Danville, VA, for installation of broadband on the Eastern Shore of Virginia	\$1,786,000	Warner, Webb
NASA	Mid-Atlantic Institute for Space Technology, Pocomoke City, MD, for UAV testing and certification	\$223,250	Mikulski
NASA	Mid-Atlantic Regional Spaceport, Wallops Island, VA, for infrastructure improvements to launch facilities	\$223,250	Mikulski
NASA	Morehouse College Project Mars Program	\$188,000	Lewis (John), Johnson (Hank), Chambliss, Isakson
NASA	Nano/Micro Devices Laboratory at the University of Alabama-Huntsville	\$611,000	Cramer
NASA	NASA Exchange City Learning Lab	\$188,000	Kennedy (Patrick)
NASA	NASA Johnson Space Center, Houston, TX, for computer operations and improvements	\$564,000	Hutchison, Lampson

COMMERCE, JUSTICE, SCIENCE—Continued

Account	Project	Amount	Member(s)
NASA	National Center for Remote Sensing, Air, and Space Law, University, MS, to provide legal research and outreach on critical space and aviation law issues	\$2,820,000	Cochran, Wicker
NASA	National Youth Science Foundation	\$258,500	Mollohan
NASA	New Mexico State University, Las Cruces, NM, for the Southern New Mexico Science, Engineering, Mathematics, and Aerospace Academy for a space education program to meet the math and science learning needs of under-represented K-12 students	\$178,600	Bingaman
NASA	Pittsburgh Engineering Initiatives, Pittsburgh, PA, to further development of regenerative treatments for astronauts	\$267,900	Casey
NASA	Research on Aviation Training at Middle Tennessee State University	\$470,000	Gordon
NASA	Robotic Exploration Technologies in Astrobiology, Global Undersea Research Unit, University of Alaska, Fairbanks	\$282,000	Honda
NASA	Robotics and Exploration Testbed at Marshall Space Center	\$4,089,000	Aderholt
NASA	Rochester Institute of Technology, Rochester, NY, for a Integrated Sensing Systems Testbed (ISST) to develop, demonstrate, and validate advanced techniques for situational awareness	\$178,600	Schumer, Clinton
NASA	Science, Engineering, Mathematics and Aerospace Academy at York College	\$188,000	Meeks, Schumer, Clinton
NASA	Science, Technology, Engineering, and Mathematics Center at Tennessee Tech University	\$752,000	Gordon
NASA	Southeast Missouri State University, Cape Girardeau, MO, Enhancement of K-12 teaching and learning of sciences, math, and technology among schools, teachers, and students	\$846,000	Bond

(Lott)

NASA	Southern Research Institute, Birmingham, AL, for the development of laboratory-based test methods and test standards for coupon and component level characterization; development of subcomponent testing capabilities for material, component and system characterization; development and qualification of modeling and simulation techniques for these applications; and development of an integrated modeling and testing approach for evaluation and optimization of new material concepts	\$940,000	Shelby
NASA	Space Engineering Institute at Texas A&M University	\$352,500	Hall (Ralph)
NASA	St. Louis University, St. Louis, MO, for immunology research that will complement NASA research on the immune system in microgravity	\$846,000	Bond
NASA	Stennis Space Center, MS, to continue a longstanding technology/industry partnership in assisting in transitioning space technologies into the commercial sector	\$3,760,000	Cochran
NASA	Stennis Space Center, MS, to support infrastructure improvements for Crew Exploration Vehicle testing	\$2,820,000	Cochran
NASA	Teach for America, New York, NY to engage teachers in science, technology, engineering and mathematics	\$2,350,000	Mikulski
NASA	Thurgood Marshall College Fund Minority NASA Science Initiative	\$940,000	Jackson Lee, Norton, Cummings, Mee, Watt
NASA	Tulane University, New Orleans, LA, for ongoing applied polymer technology research and development that links NASA with Louisiana's polymer industry and the State's academic polymer research programs	\$446,500	Landrieu, Vitter, Jefferson, Jindal, Melancon
NASA	U.S. Space and Rocket Center, Huntsville, AL, for completion of a long overdue update for the museum and exhibits will provide a more stimulating and effective presentation of the history of our nation's space exploration efforts and will serve to stimulate increased interest in science and technology	\$470,000	Shelby
NASA	University of Alabama in Huntsville, Huntsville, AL, to provide research that will provide both fundamental insight into the combustion behavior of this fuel with liquid oxygen which will assist in realizing its full performance potential and will train the next generation of propulsion scientists and engineers who will work for or support NASA in implementing the chosen engine designs	\$1,410,000	Shelby

COMMERCE, JUSTICE, SCIENCE—Continued

Account	Project	Amount	Member(s)
NASA	University of Alabama, Tuscaloosa, AL, to conduct the fundamental and applied re- search needed to develop effective near-space technologies for station-keeping	\$470,000	Shelby
NASA	University of California Santa Cruz, Santa Cruz, CA, to continue the establishment of the Center at NASA Ames Research Center in collaboration with UC Santa Cruz	\$446,500	Feinstein, Honda, Eshoo
NASA	University of Louisville, Louisville, KY, for technology that assists trauma victims without immediate access to emergency medical care, including astronauts	\$1,222,000	McConnell, Yarmuth
NASA	University of Maryland, Baltimore County, MD, for environmental remote sensing	\$1,786,000	Mikulski, Hoyer, Ruppersberger
NASA	University of Maryland, College Park, MD, for the Maryland Institute for Dextrous Robotics for the creation of a new generation robotic technology for space explo- ration	\$2,679,000	Mikulski, Hoyer, Bartlett
NASA	University of Nebraska, Lincoln, Lincoln, NE, to help establish a degree program in space and telecommunications law	\$1,786,000	Nelson (Ben)
NASA	University of Northern Iowa, Cedar Falls, IA, to improve the use of geospatial data by State and local governments	\$613,000	Harkin, Grassley, Braley
NASA	University of Redlands Education Technology Program	\$470,000	Lewis (Jerry)
NASA	University of Vermont, Burlington, VT, for the UVM Center for Advanced Computing	\$1,700,000	Leahy
NASA	Upper Midwest Aerospace Consortium at the University of North Dakota, Grand Forks, ND, to help make data received from NASA satellite images accessible to the public for management decisions	\$2,679,000	Dorgan, Conrad, Pomeroy
NASA	Utah State University Research Foundation, Logan, UT, To develop a modern infra- red calibration capability for current and future remote sensing instruments	\$376,000	Bennett
NASA	Wheeling Jesuit University, Wheeling, WV, to expand the reach of the HealthWV program, an electronic medical records system	\$2,679,000	Byrd

NASA	Wichita State University, Wichita, KS, to improve facilities and equipment at the National Center for Advanced Materials Performance (NCAMP), which provides shared-database methodology addressing material, structural, manufacturing, and repair qualification processes for use of affordable polymeric composite materials in commercial and military applications	\$329,000	Brownback
NASA	Women in Science and Engineering Scholars Program at Spelman College	\$188,000	Lewis (John), Chambliss, Isakson
